

A structural overview of the <i>Helicobacter</i> cytotoxin	
J.-M. Reytrat, R. Rappuoli, J. L. Telford	375-379
<i>Pseudomonas aeruginosa</i> exoenzyme S, a bifunctional type-III secreted cytotoxin	
J. T. Barbieri	381-387
Structural basis of pore formation by cholesterol-binding toxins	
R. J. C. Gilbert, J. L. Jiménez, S. Chen, J. Rossjohn, M. W. Parker, P. W. Andrew, H. R. Saibil	389-394
Crystal structure of the F component of the Panton-Valentine leucocidin	
J. D. Pédelacq, G. Prévost, H. Monteil, L. Mourey, J. P. Samama	395-401
Floating cholera toxin into epithelial cells: functional association with caveolae-like, detergent-insoluble membrane microdomains	
K. Badizadegan, A. Wolf, C. Rodighiero, M. Jobling, T. R. Hirst, R. K. Holmes, W. I. Lencer	403-408
Intracellular trafficking and membrane translocation of pertussis toxin into host cells	
A. Veithen, D. Raze, C. Locht	409-413
Ricin transport into cells: studies of endocytosis and intracellular transport	
K. Sandvig, S. Grimmer, T.-G. Iversen, K. Rodal, M. L. Torgersen, P. Nicoziani, B. van Deurs	415-420
Lethal factor of <i>Bacillus anthracis</i> cleaves the N-terminus of MAPKKs: analysis of the intracellular consequences in macrophages	
R. Pellizzari, C. Guidi-Rontani, G. Vitale, M. Mock, C. Montecucco	421-427
The p21 GTP-binding proteins and bacterial toxins	
P. Boquet	429-434
The diphtheria toxin channel-forming T-domain translocates its own NH₂-terminal region and the catalytic domain across planar phospholipid bilayers	
A. Finkelstein, K. J. Oh, L. Senzel, M. Gordon, R. O. Blaustein, R. J. Collier	435-440
<i>Bordetella pertussis</i> adenylate cyclase toxin as a tool to analyze molecular interactions in a bacterial two-hybrid system	
G. Karimova, A. Ullmann, D. Ladant	441-445
Immune modulation by the cholera-like enterotoxin B-subunits: from adjuvant to immunotherapeutic	
N. A. Williams	447-453
LTK63 and LTR72, two mucosal adjuvants ready for clinical trials	
M. Pizza, M. M. Giuliani, M. R. Fontana, G. Douce, G. Dougan, R. Rappuoli	455-461
<i>Bacillus thuringiensis</i> and its use in transgenic insect control technologies	
J. Van Rie	463-469
Design of toxins that can be activated by cell-specific proteases and their potential use in targeted cell killing	
P. Ø. Falnes	471-476
The superantigenic toxin of <i>Yersinia pseudotuberculosis</i>: a novel virulence factor?	
C. Carnoy, H. Müller-Alouf, P. Desreumaux, C. Mullet, C. Grangette, M. Simonet	477-482
Murine toxin of <i>Yersinia pestis</i> shows phospholipase D activity but is not required for virulence in mice	
J. Hinnebusch, P. Cherepanov, Y. Du, A. Rudolph, J. D. Dixon, T. Schwan, A. Forsberg	483-487
The mycoplasma superantigen MAM: role in arthritis and immune-mediated disease	
B. C. Cole, H. H. Mu, A. D. Sawitzke	489-490
Enterotoxins and the enteric nervous system – a fatal attraction	
M. J. G. Farthing	491-496
The pathogenesis of clostridial myonecrosis	
D. L. Stevens	497-502
Editorial – General conclusions	
M. Thelestam	503-506
Extended Abstracts	A1-A95
Book reviews	300, 306, 312, 324, 332, 336, 362, 368, 380, 388, 402, 414, 428, 446, 454, 462, 470, 488
