

## Editorial

- 1 **«Gynäkologisch-geburtshilfliche Rundschau» – 2000**  
Hepp, H. (München); Haller, U. (Zürich); Winter, R. (Graz)

## Übersichtsarbeiten

- 3 **Entwicklung der minimal-invasiven Mammachirurgie-Übersicht und eigene Erfahrungen. Neue chirurgische Herausforderungen in der Diagnostik und Therapie des Brustkrebses**  
Developments in Minimally Invasive Breast Surgery – Overview and Our Own Experience: New Diagnostic and Therapeutic Challenges in Breast Cancer  
Köchli, O.R. (Basel)

New diagnostic and therapeutic modalities in breast cancer are presented, including ABBI®, the Mammotome® system, sentinel lymph node biopsy and endoscopic axillary clearance after liposuction.

- 13 **Sexualität in der zweiten Lebenshälfte**  
Sexuality in the Second Half of the Life Span  
Schmid Mast, M.; Hornung, R.; Gutzwiller, F.; Buddeberg, C. (Zürich)

Findings on sexual experience and behavior during the second half of the life span are presented on the basis of a multiperspective approach.

- 20 **Der Kardiotokographiescore nach Hammacher in der elektronischen Analyse**  
The Cardiotocographic Score of Hammacher in Computer Analysis  
Roemer, V.M. (Detmold)

The CTG scoring system according to Hammacher was evaluated in 392 fetuses during the last 30 min ante partum and revealed a close correlation ( $p < 0.001$ ) with pH values in the umbilical artery blood.

- 29 **Lichen sclerosus – hormonelle Therapie heute**  
Lichen sclerosus – Present-Day Hormonal Therapy  
Küng, F. (Zürich)

Topical treatment with the very potent steroidlike clobetasol (0.05%) is the therapy of choice for vulvar lichen sclerosus, being much more effective than testosterone (2%) or placebo.

## Originalarbeiten

- 33 **Laserkonisationen und -vaporisationen der Portio**  
Laser Conization and Laser Ablation of the Transformation Zone  
Kieni, S.; Rageth, J.C. (Schlieren)

Laser therapy is very precise and can mostly be performed as an outpatient procedure under local anesthesia with a low complication rate.

- 41 **Ultraschallgesteuerte Schneidbiopsien nicht palpabler Mammaläsionen: Korrelation mit den Ergebnissen der ultraschallgesteuerten Feinnadelpunktion**  
Ultrasound-Guided Biopsy of Non-Palpable Breast Lesions: Correlation with the Results of Fine-Needle Aspiration Biopsy

Hilfiker, P.R.; Caduff, R.; Pok-Lundquist, J.; Garzoli, E.; Marincek, B.; Kubik-Huch, R.A. (Zürich)

US-guided biopsy using an 18-gauge needle for the evaluation of non-palpable breast lesions is an attractive alternative to fine-needle aspiration in the absence of experienced cytologic diagnosticians.

## Der klinische Fall

- 47 **Neurofibromatose der Brust bei Morbus von Recklinghausen**  
Neurofibromatosis of the Breast in a Patient with Morbus von Recklinghausen

Fink, D.; Schneider, C.; Wight, E.; Perucchini, D.; Haller, U. (Zürich)

A case of a 46-year-old woman with von Recklinghausen's disease of the breast is reported, and the literature will be discussed.

## Spektrum

- 50 **Die Zukunft der deutschen Sprache in der Wissenschaft**  
The Future of the German Language in Science  
Beller, F.K. (Iowa City, Iowa)

The removal of German journals and the impact factor are going to change the structure of German language journals.

- 55 **Gesellschaftsnachrichten**  
56 **Veranstaltungskalender**

## Umschlagsabbildungen

Neurofibromatose der Brust bei Morbus von Recklinghausen.  
Fink et al., S. 48.
