Cardiac allograft vasculopathy

| | | |
|----------------|--|---|
| von Scheidt W: | Introduction: Cardiac allograft vasculopathy – problem and model | 2 |
| Russell ME: | Key Lecture: Cardiac allograft vasculopathy – a changing perspective | 6 |

Pathogenic mechanisms

| | | |
|-----------------------------------|--|----|
| Rose ML: | Role of antibodies in transplant-associated cardiac allograft vasculopathy . | 11 |
| Hutchinson IV: | Cardiac allograft vasculopathy – the cellular attack | 16 |
| Kabelitz D: | Role of apoptosis in cardiac allograft vasculopathy | 21 |
| Koglin J: | Pathogenic mechanisms of cardiac allograft vasculopathy – impact of nitric oxide | 24 |
| Tayara L, Giaid A: | Endothelin and cardiac transplantation | 28 |
| Labarrere CA, Abellada GC: | Vascular anticoagulation and transplant coronary artery disease | 32 |
| Pethig K, Heublein B, Haverich A: | Vascular remodeling in cardiac allograft vasculopathy | 36 |

Clinical dilemma

| | | |
|---|--|----|
| von Scheidt W: | The clinical dilemma of cardiac allograft vasculopathy – an introduction to the clinical session | 40 |
| König A, Theisen K, Klauss V: | Intravascular ultrasound for assessment of coronary allograft vasculopathy | 45 |
| Spes CH, Angermann CE: | Stress echocardiography for assessment of cardiac allograft vasculopathy . | 50 |
| Lozano MD: | Microvascular coronary arterial vasculopathy – predictive value of endomyocardial biopsy | 54 |
| Weis M, Pehlivani S, von Scheidt W: | Heart allograft endothelial cell dysfunction. Cause, course, and consequences | 58 |
| Deng MC, Baba HA, Plenz G, Erren M, Wilhelm MJ, Moennig G, Scheld HH: | Prediction of morbidity and mortality from cardiac allograft vasculopathy | 63 |
| Pethig K, Heublein B, Haverich A: | Cardiac allograft vasculopathy – coronary interventions and surgical options | 66 |

Epicardial vasomotor dysfunction

| | | |
|---------------------------|--|----|
| Schächinger V, Zeiher AM: | Atherosclerosis-associated endothelial dysfunction | 70 |
| Maseri A: | Acute coronary syndromes – precipitating factors: the search for novel therapeutic targets | 75 |
| Johnston DW: | Cognitive behaviour therapy for cardiovascular diseases | 78 |
