

Contents

Focus on Cellular Biochemistry

- 1 **Bauer, M. F., Paschen, S., Neupert, W., Brunner, M.** Mechanisms of mitochondrial protein import
- 11 **Estornell, E.** Mitochondrial complex I: new insights from inhibitor assays
- 18 **Huber, C. M., Saffrich, R., Gorgas, K., Just, W. W.** Organelle motility regulated by the cell's environment: dissection of signaling pathways regulating movements of peroxisomes

Original Papers

- 28 **Ueda, K., Matsuyama, T.** Rearrangement of cortical microtubules from transverse to oblique or longitudinal in living cells of transgenic *Arabidopsis thaliana*
- 39 **Trebacz, K., Schönknecht, G.** Simple method to isolate vacuoles and protoplasts for patch-clamp experiments
- 46 **Tominaga, M., Yokota, E., Sonobe, S., Shimmen, T.** Mechanism of inhibition of cytoplasmic streaming by a myosin inhibitor, 2,3-butanedione monoxime
- 55 **Davidson, A. L., Newcomb, W.** Novel ultrastructural observations of pea (*Pisum sativum*) root nodule cells by high-pressure freezing and propane-jet freezing techniques
- 67 **Schmidt, W., Schikora, A., Pich, A., Bartels, M.** Hormones induce an Fe-deficiency-like root epidermal cell pattern in the Fe-inefficient tomato mutant *fer*
- 74 **Nagata, N., Saito, C., Sakai, A., Kuroiwa, H., Kuroiwa, T.** Unique positioning of mitochondria in developing microspores and pollen grains in *Pharbitis nil*: mitochondria cover the nuclear surface at specific developmental stages
- 83 **Martinez, C., Jauneau, A., Roux, C., Savy, C., Dargent, R.** Early infection of maize roots by *Sporisorium reilianum* f. sp. *zeae*
- 93 **Karimova, F. G., Kortchouganova, E., Tarchevsky, I. A., Iagoucheva, M. R.** The oppositely directed Ca²⁺ and Na⁺ transmembrane transport in algal cells
- 99 **Zhu, T., Rost, T. L.** Directional cell-to-cell communication in the *Arabidopsis* root apical meristem III: plasmodesmata turnover and apoptosis in meristem and root cap cells during four weeks after germination
- 108 **Yang, C., Li, G., Zhai, Z.-H.** Ultrastructural characterization of the locomotory cytoskeletal system of the spermatozoid in *Ginkgo biloba*
- 118 **Venora, G., Blangiforti, S., Frediani, M., Maggini, F., Gelati, M. T., Ruffini Castiglione, M., Cremonini, R.** Nuclear DNA contents, rDNAs, chromatin organization, and karyotype evolution in *Vicia* sect. *faba*
