

# Respiration

(Continued from back cover)

## Basic Science Investigations

**552 Inhibitory Effect of N-Acetylcysteine on Adherence of *Streptococcus pneumoniae* and *Haemophilus influenzae* to Human Oropharyngeal Epithelial Cells in vitro**

Riise, G.C.; Qvarfordt, I.; Larsson, S.; Eliasson, V.; Andersson, B.A. (Göteborg)

**559 Treatment with High Doses of Terbutaline Induces  $\beta$ -Adrenergic Desensitization of Guinea Pig Trachea Not Prevented by the Addition of Dexamethasone**

Seco, A.J.; Salgueiro, M.E.; Villanueva, M.A.; Manso, G. (Oviedo)

**565 Goblet Cell Hyperplasia in the Airway of *Nippostrongylus brasiliensis*-Infected Rats**

Tomita, M.; Kobayashi, T.; Itoh, H.; Onitsuka, T.; Nawa, Y. (Miyazaki)

## The Eye Catcher

**570 Efficient Intervention in Life-Threatening Hemoptysis**

Lütolf, M.; Kuhn, M.; Reinhart, W. (Chur)

## Case Reports

**572 Four Cases of Bronchiolitis obliterans Organizing Pneumonia Associated with Thyroid Disease**

Watanabe, K.; Senju, S.; Maeda, F.; Yshida, M. (Fukuoka)

**577 Allergic Granulomatous Angiitis (Churg-Strauss Syndrome) Associated with Allergic Bronchopulmonary Candidiasis**

Matsumoto, H.; Niimi, A.; Suzuki, K.; Kawai, M. (Kyoto); Matsui, Y. (Osaka); Amitani, R. (Kyoto)

**580 Pergolide-Induced Dyspnea, Bilateral Pleural Effusion and Peripheral Edema**

Varsano, S.; Gershman, M. (Kfar Sava/Tel Aviv); Hamaoui, E. (Kfar Sava)

**583 Different Manifestations of Langerhans Cell Histiocytosis Affecting Two Members of a Family**

Balikó, Z.; Schreiner, M.; Kishindy, K.K.; Hegedüs, G.; Kosztolányi, Gy. (Pécs)

## What Is Your Diagnosis?

**586 A Non-Resolving Pneumothorax?**

Koegelenberg, C.F.N.; Liebenberg, G.C.; van Dyk, T.J.R.; Gaisbichler, W.; Bolliger, C.T. (Cape Town)

## Letters to the Editors

**590 Pulmonary Metastasis Secondary to Burned-Out Testicular Tumor**

Leleu, O.; Vaylet, F.; Debove, P.; Levagueresse, R.; L'her, P. (Clamart)

**591 A Case of Acute Respiratory Distress Syndrome Caused by Systemic Nocardiosis**

Tsushima, K.; Koizumi, T.; Aoki, H. (Matsumoto); Furuta, K. (Iiyama); Fujimoto, K.; Kubo, K. (Matsumoto)

**592 The Prevalence of Serum Antibodies to Hepatitis C Virus Is Not Increased in Patients with Sarcoidosis**

Mert, A.; Bilir, M.; Ozaras, R.; Karayel, T.; Demirci, S.; Senturk, H. (Istanbul)

**593 Small-Cell Carcinoma as a Cause of Superior Vena Cava Syndrome in a Patient with Behçet's Disease**

Akpolat, T.; Yildiz, L.; Akpolat, I.; Bekir Selcuk, M.; Ozbek, N.; Yücel, I. (Samsun)

## 594 Congress Calendar

### Cover illustration

Upper right: Maximal and tidal flow-volume loops from a cystic fibrosis (CF) subject with hyperinflation and expiratory flow limitation at rest.

Central: Chest radiograph from a teenager with CF and advanced lung pathology.

Lower right: Partial DNA sequence of the CF transmembrane conductance regulator (CFTR) gene, exon 4, showing two different missense mutations in the same codon and the normal sequence.

Lower left: Schematic representation of chromosome 7 with the CF gene.

Courtesy Dr. A. Lindblad, CF Centre and Ms. Eva Björk, Genetic Laboratory, The Queen Silvia Children's Hospital, Gothenburg, Sweden, and F. Hoffmann-La Roche Ltd., Basel, Switzerland.

## Online

Access to full text and tables of contents, including tentative ones for forthcoming issues:
