

Volume 19, Number 4/2000
October 2000
Pages 337-440

QSAR

WITH ABSTRACT SERVICE

Papers/News Section

- 339 T. Wayne Schultz
and Julie R. Seward Dimyristoyl Phosphatidylcholine/water Partitioning-dependent
Modeling of Narcotic Toxicity to *Tetrahymena pyriformis*
- 345 Lennart Eriksson, Erik Johansson,
Fredrik Lindgren
and Svante Wold GIF-PLS: Modeling of Non-Linearities and Discontinuities in QSAR
- 356 Philip S. Magee Exploring the Potential for Allergic Contact Dermatitis via Computed
Heats of Reaction of Haptens with Protein End-groups
- 366 Oleg A. Raevsky, Valery I. Fetisov,
Ellen P. Trepalina,
James W. McFarland
and Klaus-J. Schaper Quantitative Estimation of Drug Absorption in Humans for Passively
Transported Compounds on the Basis of Their Physico-chemical
Parameters
- 375 Hong-Yu Zhang, You-Min Sun,
Gui-Qiu Zhang and De-Zhan Chen Why Static Molecular Parameters Cannot Characterize the Free
Radical Scavenging Activity of Phenolic Antioxidants
- 380 New Books

Abstracts of QSAR related Publications

- | | | | |
|-----|---------------------------------------------------------|-----|-----------------------------------------------------------|
| 382 | Review | 404 | 3D QSAR |
| 386 | Classical QSAR: Theoretical Papers | 410 | Data Base Search and Similarity |
| 391 | Classical QSAR: Pharmacology | 413 | Multivariate Analysis and Neural Network |
| 396 | Classical QSAR: Agricultural | 416 | Combinatorial Library Design and
Diversity Calculation |
| 398 | Classical QSAR: Organic Chemistry | 417 | Molecular Graphics, X-ray, NMR |
| 399 | Classical QSAR: Chromatography | 434 | Proteins and Peptides |
| 401 | Classical QSAR: Toxicology and Environmental
Science | 436 | Programs, Algorithm, Data Bases |
| 402 | Classical QSAR: Disposition | | |
