

Quintessence International

Restorative Dentistry

- 183 Amelogenesis imperfecta: Diagnosis and resolution of a case with hypoplasia and hypocalcification of enamel, dental agenesis, and skeletal open bite
R. P. Encinas/I. García-Espona/
J. M. N. Rodríguez de Mondelo
- 191 Burs with guide pins for standardized tooth preparation
K. W. Boening/K. I. Kaestner/
R. G. Luthardt/M. H. Walter

Dental Materials

- 199 A 5-year clinical study of indirect and direct resin composite and ceramic inlays
M. Thordrup/F. Isidor/P. Hörsted-Bindslev
- 206 Fracture toughness of posterior resin composites
E. D. Bonilla/G. Mardirossian/A. A. Caputo
- 211 Pulp response and cytotoxicity evaluation of 2 dentin bonding agents
F. F. Demarco/S. B. C. Tarquinio/
M. M. M. Jaeger/V. Cavalcanti de Araújo/
E. Matson

Oral Medicine

- 221 The patient with Alzheimer's disease
C. A. Gitto/M. J. Moroni/
G. T. Terezhalmly/S. Sandu
- 232 Diplopia as a complication of local anesthesia: A case report
F. Koumoura/G. Papageorgiou

Oral Surgery

- 235 Management of an impacted, dilacerated mandibular left permanent first molar: A case report
S. Hegde/A. K. Munshi

Special Report

- 239 Ease of use versus clinical effectiveness of restorative materials
F. J. T. Burke/M. Liebler/G. Eliades/R. C. Randall

Dental Research

- 243 Aluminum oxide air abrasion particles: A bacteriologic and SEM study
K. R. Kofford/C. W. Wakefield/D. F. Murchison
- 249 Constancy of bond strength in 5 single-bottle dentin bonding systems
W. D. Browning/M. L. Myers/L. B. Nix

Departments

- 181 Editorial
- 254 Clinical Images in Oral Medicine and Maxillofacial Radiology
- 256 Communication Breakthrough
- 258 International Dental Meetings
- 259 Author Guidelines
- 260 Mandatory Submission Form
