

# QSAR

WITH ABSTRACT SERVICE

## Papers/News Section

- 3 Michal Boháč, Björn Loeprecht,  
 Jiří Damborský and  
 Gerrit Schüürmann Impact of Orthogonal Signal Correction (OSC) on the Predictive  
 Ability of CoMFA Models for the Ciliate Toxicity of Nitrobenzenes
- 12 Aynur O. Aptula, Tatiana I. Netzeva,  
 Iva V. Valkova, Mark T. D. Cronin,  
 Terry W. Schultz, Ralph Kühne and  
 Gerrit Schüürmann Multivariate Discrimination between Modes of Toxic Action of Phenols
- 23 Pranas Japertas,  
 Remigijus Didziapetris,  
 Alanas Petrauskas Fragmental Methods in the Design of New Compounds. Applications of  
 The Advanced Algorithm Builder
- 38 Michael Appell, Aleksej Krunić,  
 Tony Jeon Choi, S. V. Santhana  
 Mariappan, William J. Dunn III and  
 Maarten E. A. Reith NMR Study of Conformational Preferences of Inhibitors of  
 Monoamine Uptake

## Abstracts of QSAR related Publications

- |    |   |    |  |
|----|---|----|--|
| 43 | Review  | 66 | 3D QSAR                                  |
| 43 | Classical QSAR: Theoretical Papers                      | 71 | Data Base Search & Similarity            |
| 52 | Classical QSAR: Pharmacology                            | 72 | Combinatorial Library                    |
| 55 | Classical QSAR: Agricultural                            | 74 | Multivariate Analysis and Neural Network |
| 57 | Classical QSAR: Physical Organic Chemistry              | 76 | Molecular Graphics, X-ray, NMR           |
| 60 | Classical QSAR: Environmental Science and<br>Toxicology | 86 | Protein & Peptide                        |
| 63 | Classical QSAR: Drug Disposition                        | 89 | Programs, Algorithm, Data Bases          |
