# QSAR

WITH ABSTRACT SERVICE

## Papers/News Section

- |            |  |   |
|------------|--|---|
| <b>97</b>  | Roberto Car  | Introduction to Density-Functional Theory and ab-Initio Molecular Dynamics  |
| <b>105</b> | Vincenzo Barone, Orlando Crescenzi, Roberto Impronta                     | Computation of Spectroscopic Parameters by Methods based on the Density Functional Theory                             |
| <b>119</b> | Leonardo Guidoni, Patrick Maurer, Stefano Piana and Ursula Rothlisberger | Hybrid Car-Parrinello/Molecular Mechanics Modelling of Transition Metal Complexes: Structure, Dynamics and Reactivity |
| <b>128</b> | Fernando Bernardi, Andrea Bottini and Marco Garavelli                    | Exploring Organic Chemistry with DFT: Radical, Organo-metallic, and Bio-organic Applications                          |
| <b>149</b> | Simone Raugei, Dongsup Kim and Michael L. Klein                          | Application of Density Functional Theory Based Car-Parrinello Simulations to the Study of Catalytic Processes         |
| <b>166</b> | Paolo Carloni  | Density Functional Theory-Based Molecular Dynamics of Biological Systems  |
| <b>173</b> | M. Sulpizi, G. Folkers, U. Rothlisberger, P. Carloni and L. Scapozza     | Applications of Density Functional Theory-Based Methods in Medicinal Chemistry  |

## Abstracts of QSAR related Publications

- |            |  |            |  |
|------------|--|------------|--|
| <b>185</b> | Review   | <b>208</b> | 3D QSAR                                  |
| <b>186</b> | Classical QSAR: Theoretical Papers                   | <b>217</b> | Data Base Search & Similarity            |
| <b>190</b> | Classical QSAR: Pharmacology                         | <b>221</b> | Combinatorial Library                    |
| <b>196</b> | Chemical QSAR: Apicultural                           | <b>223</b> | Molecular Graphics, X-ray, NMR           |
| <b>198</b> | Classical QSAR: Physical Organic Chemistry           | <b>229</b> | Multivariate Analysis and Neural Network |
| <b>204</b> | Classical QSAR: Environmental Science and Toxicology | <b>230</b> | Protein & Peptide                        |
| <b>207</b> | Classical QSAR: Drug Disposition                     | <b>232</b> | Programs, Algorithm, Data Bases          |
