Extended Abstracts

Regulation of endothelial K ⁺ -channel expression by shear stress	269
--	-----

S. Brakemeier, A. Kersten, I. Grgic, I. Eichler, A. Zakrzewicz, H. Hopp, R. Köhler and J. Hoyer

Defective hyperpolarization in regenerated endothelium after balloon-catheter angioplasty	272
---	-----

I. Eichler, S. Brakemeier, M. Kühn, R. Real, H.-D. Orzechowski, A.R. Pries[†], M. Paul, R. Köhler and J. Hoyer

New chances of nephro-protection by AT ₁ -receptor blockade	276
--	-----

T. Rislér

Blood pressure in acromegaly	278
------------------------------	-----

J. Scholze, Th. Sydow and M. Ventz

Cardiac noradrenaline content is increased by ACE inhibitors due to an AT ₁ -dependent down-regulation of MAG activity	281
---	-----

W. Raasch, A. Gieselberg, T. Bartels, A. Dendorfer and P. Dominiak

Transgenic activation of the kallikrein-kinin system protects from left-ventricular dysfunction in experimental diabetic cardiomyopathy in rats by inhibition of cell adhesion molecule expression and immunocompetent infiltration	284
---	-----

M. Noutsias, F. Escher, F. Spillmann, Th. Walther, M. Bader, H.-P. Schultheiß and C. Tschöpe

Is there a role for P2Y-receptors in blood pressure regulation?	289
---	-----

M. van der Giet, F. Nöther, W. Zidek and M. Tepel

Original

Preoperative evaluation of living kidney donors with 3D-computed tomography	291
---	-----

W. Werner, A. Kaiser, H. Sperschnieder, K. Pöschel, R. Hans and J. Schubert

Reviews

Progressive renal insufficiency after coronary angiography	295
--	-----

B. Hartmann, R. Thoma, U. Schönermarck, N. Mistry-Burchardi, M. Weiss, T. Bosch and W. Samtleben

Inflammatory reactions during hemodialysis	304
--	-----
