| Tick-transmitted diseases in central Europe | Stanek, G. | 471 |
|--|------------|------------|

Ticks

Review Article

| | | |
|--|-------------|------------|
| Biology of <i>Ixodes</i> species ticks in relation to tick-borne zoonoses | Gray, J. S. | 473 |
|--|-------------|------------|

History of Medicine

| | | |
|---|--------------------------|------------|
| Theobald Smith – The discoverer of ticks as vectors of disease | Assadian, O., Stanek, G. | 479 |
|---|--------------------------|------------|

Original Articles

| | | |
|--|--|------------|
| Prevalence of coinfection with <i>Francisella tularensis</i> in reservoir animals of <i>Borrelia burgdorferi</i> sensu lato | Výrosteková, V., Khanakah, G., Kocianová, E., Guryčová, D., Stanek, G. | 482 |
|--|--|------------|

| | | |
|---|---|------------|
| Comparison of self-assessment and scutal index for the duration of <i>Ixodes ricinus</i> tick attachment | Logar, M., Ružič-Sabljić, E., Strle, F. | 489 |
|---|---|------------|

Lyme borreliosis

Original Articles

| | | |
|---|---|------------|
| Clinical and epidemiological findings for patients with erythema migrans. Comparison of cohorts from the years 1993 and 2000 | Strle, F., Videčnik, J., Zorman, P., Cimperman, J., Lotrič-Furlan, S., Maraspin, V. | 493 |
|---|---|------------|

| | | |
|---|---|------------|
| Solitary erythema migrans in children: comparison of treatment with azithromycin and phenoxymethylpenicillin | Arnež, M., Pleterški-Rigler, D., Lužnik-Bufon, T., Ružič-Sabljić, E., Strle, F. | 498 |
|---|---|------------|

| | | |
|--|---|------------|
| Cerebrospinal fluid findings in adult patients with multiple erythema migrans | Maraspin, V., Cimperman, J., Lotrič-Furlan, S., Ružič-Sabljić, E., Jurca, T., Strle, F. | 505 |
|--|---|------------|

| | | |
|--|--|------------|
| Electrocardiographic findings in patients with erythema migrans | Pikelj-Pečnik, A., Lotrič-Furlan, S., Maraspin, V., Cimperman, J., Logar, M., Jurca, T., Strle, F. | 510 |
|--|--|------------|

| | | |
|--|--|------------|
| Solitary borreliosis lymphocytoma in adult patients | Maraspin, V., Cimperman, J., Lotrič-Furlan, S., Ružič-Sabljić, E., Jurca, T., Picken, R. N., Strle, F. | 515 |
|--|--|------------|

| | | |
|--|---|------------|
| Children with multiple erythema migrans: Are there any pre-treatment symptoms and/or signs suggestive for central nervous system involvement? | Arnež, M., Pleterški-Rigler, D., Lužnik-Bufon, T., Ružič-Sabljić, E., Strle, F. | 524 |
|--|---|------------|

| | | |
|---|--|------------|
| Procalcitonin levels in patients with Lyme borreliosis | Lotrič-Furlan, S., Maraspin-Čarman, V., Cimperman, J., Ogrinc, K., Stopar, T., Strle, F. | 530 |
