Symposium 3: Toxicology and Functional Pharmacogenetics – IL 10

Gerd Schmitz, Charalampos Aslanidis, Wolfgang Drobnik and Mariam Klouche, Regensburg

Reduction of multidrug toxicity: pharmacogenetics and functional diagnostics as alternative approaches 165

Symposium 3: Toxicology and Functional Pharmacogenetics – IL 11

V. Kaefer, Hannover

New developments in immunosuppressive drug monitoring 166

Symposium 3: Toxicology and Functional Pharmacogenetics – SC 03

Hallbach Jürgen & Walter G. Guder, München

Fast diagnosis of acute intoxications by a combined laboratory strategy of HPLC and GC-MS after ultra-sonic derivatisation 167

Symposium 4: Thrombosis and Inflammation – IL 15

W. Herrmann, Homburg

The Importance of Hyperhomocysteinemia as an Atherothrombotic Risk Factor 168

Symposium 5: Immunology and Mediators - IL 17

Ralf R. Schumann, Berlin

Lipopolysaccharide Binding Protein: Acute Phase Marker and Inhibitor of the Monocyte Lipopolysaccharide Response 169

Symposium 6: Recent Advances in Cellular Diagnostics - IL 22

Dieter Kabelitz, Kiel

Features and Functions of Human $\gamma\delta$ T-Lymphocytes 169

Symposium 6: Recent Advances in Cellular Diagnostics - IL 23

Gregor Rothe, Alexandra Pfeiffer, Evelyn Orsó, Alfred Böttcher, Wolfgang Drobnik, Gerd Schmitz, Regensburg

Dynamic clusters of pattern recognition receptors as regulators of the innate immune system in acute and chronic inflammatory diseases 171

Symposium 9: Total Quality Management – IL 32

Benedikt Sommerhoff, Frankfurt/Main

The EFQM Excellence Model and its Application in Health Care Sector 172
