

# QSAR & Combinatorial Science

Volume 22, Number 1/2003

April 2003

Pages 1 – 180

WITH ABSTRACT SERVICE

## Papers/News Section

- |     |  |  |
|-----|--|--|
| 3   | R. Breton, G. Schüürmann<br>and R. Purdy   | Preface  |
| 5   | S. Dimitrov, Y. Koleva, M. Lewis,<br>R. Breton, G. Veith and O. Mekenyan   | Modeling mode of action of industrial chemicals: Application using<br>chemicals on Canada's Domestic Substances List (DSL)   |
| 18  | Kun Gao, Bo Tao Fan, Nadia El Fassi,<br>Krystyna Zakrzewska, Zhongjian Jia,<br>Rongliang Zheng, Annick Panaye,<br>T. Couesnon and Jean-Pierre Doucet | Comparative Study of Activities between Verbascoside and Rutin<br>by Docking Method  |
| 29  | Xiaojun Yao, Botao Fan, J. P. Doucet,<br>A. Panaye, Mancang Liu,<br>Ruisheng Zhang, Xiaoyun Zhang and<br>Zhide Hu                                    | Quantitative structure property relationship models for the prediction<br>of liquid heat capacity  |
| 49  | Lars Carlsen and John D. Walker  | QSARs for Prioritizing PBT Substances to Promote Pollution<br>Prevention   |
| 58  | Sabcho D. Dimitrov,<br>Nadezhda C. Dimitrova,<br>John D. Walker, Gilman D. Veith and<br>Ovanes G. Mekenyan   | Bioconcentration potential predictions based on molecular attributes –<br>an early warning approach for chemicals found in humans, birds, fish<br>and wildlife   |
| 69  | Alexander Tropsha, Paola Gramatica<br>and Vijay K. Gombar  | The Importance of Being Earnest: Validation is the Absolute Essential<br>for Successful Application and Interpretation of QSPR Models  |
| 78  | Kelly P. Coleman, William A. Toscano,<br>Jr. and Thomas E. Wiese   | QSAR Models of the <i>in vitro</i> Estrogen Activity of Bisphenol A<br>Analog  |
| 89  | John D. Walker, Hong Fang,<br>Roger Perkins and Weida Tong   | QSARs for Endocrine Disruption Priority Setting Database 2:<br>The Integrated 4-Phase Model  |
| 106 | Don Mackay, Jennifer Hubbarde and<br>Eva Webster   | The role of QSARs and fate models in chemical hazard and risk<br>assessment<br>Paper prepared for Quantitative Structure-Activity Relationships<br>(QSAR) Proceedings of the QSAR 2002 Conference, Ottawa May 2002 |
| 113 | Aynur O. Aptula, Ralph Kühne, Ralf-<br>Uwe Ebert, Mark T. D. Cronin,<br>Tatiana I. Netzeva and Gerrit<br>Schüürmann                                  | Modeling Discrimination between Antibacterial and Non-Antibacterial<br>Activity based on 3D Molecular Descriptors  |
