

Original Communications

- Sesquiterpenes from *Achillea pannonica* Schele
I. WERNER, S. GLASL, A. PRESSER, E. HASLINGER,
and J. JURENITSCH 303
- Sterols and Triterpenes in Cell Culture of *Hyssopus officinalis* L.
Z. SKRZYPEK and H. WYSOKIŃSKA 308
- Chemical Composition of the Essential Oils of
Two Chinese Endemic *Meconopsis* Species
C. YUAN, P. NAN, S. SHI, and Y. ZHONG 313
- Essential Oil of One of the Iranian Skullcaps
A. GHANNADI and I. MEHREGAN 316
- Three Highly Oxygenated Caryophyllene Sesqui-
terpenes from *Pestalotiopsis* sp., a Fungus Iso-
lated from Bark of *Pinus taeda*
R. F. MAGNANI, E. RODRIGUES-FO., C. DAOLIO,
A. G. FERREIRA, and A. Q. L. DE SOUZA 319
- Chemical Composition of *Corallina mediterranea*
Areschoug and *Corallina granifera* Ell. et So-
land
S. DE ROSA, Z. KAMENARSKA, K. STEFANOV, S.
DIMITROVA-KONAKLIEVA, C. NAJDENSKI, I. TZVET-
KOVA, V. NINOVA, and S. POPOV 325
- The Structural Determination of a New Steroidal
Metabolite from the Brown Alga *Sargassum*
asperifolium
S.-E. N. AYYAD, S. Z. A. SOWELLIM, M. S. EL-HO-
SINI, and A. ABO-ATIA 333
- Iridoid and Bisiridoid Glycosides from *Globu-
laria cordifolia*
H. KIRMIZIBEKMEZ, I. ÇALIŞ, P. AKBAY, and O.
STICHER 337
- Structural Characteristics of a Bioactive Polysac-
charide from *Sorghum arundinaceum*
B. P. DA SILVA, G. M. SILVA, T. P. MENDES, and
J. P. PARENTE 342
- A New Highly Oxygenated Flavone from *Ver-
nonia saligna*
Y. HUANG, Z.-H. DING, and J.-K. LIU 347
- Antioxidant Activity of Pine Bark Constituents
A. SALEEM, H. KIVELÄ, and K. PIHLAJA 351
- GC-MS Analysis of Compounds Extracted from
Buds of *Populus balsamifera* and *Populus nigra*
V. A. ISIDOROV and V. T. VINOGROROVA 355
- Antioxidant Properties of Galantamine Hydro-
bromide
M. TRAYKOVA, T. TRAKOV, V. HADJIMITOVA, K.
KRIKORIAN, and N. BOJADGIEVA 361
- Synthesis and Fungicidal Activity of Lipophylic N-
and O-Acyl Derivatives of β -Hydroxy DL- α -
Amino Acids
N. DIRVIANSKYTĖ, J. STRAUKAS, V. RAZUMAS, and
E. BUTKUS 366
- Comparison of Carotenoid Content, Gene Ex-
pression and Enzyme Levels in Tomato (*Lycopersicon esculentum*) Leaves
A: J. SIMKIN, A.-M. LABOURÉ, M. KUNTZ, and G.
SANDMANN 371
- Influence of the Dilution Rate on the Bioproduc-
tivity of Lactose-Utilizing Yeasts: Fuzzy Logic
Modeling
S. VASSILEVA and B. TZVETKOVA 381
- Effects of a Switched Weak Magnetic Field on
Lecithin Liposomes, Investigated by Nonlinear
Dielectric Spectroscopy
A. PAZUR 386
- Evaluation of Sage Phenolics for Their Antileish-
manial Activity and Modulatory Effects on In-
terleukin-6, Interferon and Tumour Necrosis
Factor- α -Release in RAW 264.7 Cells
O. A. RADTKE, L. Y. FOO, Y. LU, A. F. KIDERLEN,
and H. KOŁODZIEJ 395
