

QSAR & Combinatorial Science

Volume 22, Number 5/2003
July 2003
Page 483–562

Papers/News Section

- | | | |
|-----|--|--|
| 485 | Gisbert Schneider and
Geoff Downs | Editorial |
| 487 | Jeffrey W. Godden and
Jürgen Bajorath | An Information-Theoretic Approach to Descriptor Selection for
Database Profiling and QSAR Modeling |
| 498 | Dragos Horvath and Boryeu Mao | Neighborhood Behavior. Fuzzy Molecular Descriptors and their
Influence on the Relationship between Structural Similarity and
Property Similarity |
| 510 | David J. Livingstone and
David T. Manallack | Neural Networks in 3D QSAR |
| 519 | Ting-Lan Chiu and Sung-Sau So | Genetic Neural Networks for Functional Approximation |
| 527 | Michael J. E. Sternberg and
Stephen H. Muggleton | Structure Activity Relationships (SAR) and Pharmacophore Discovery
Using Inductive Logic Programming (ILP) |
| 533 | Matthew W. B. Trotter and
Sean B. Holden | Support Vector Machines for ADME Property Classification |
| 549 | Alireza Givehchi, Axel Dietrich,
Paul Wrede and Gisbert Schneider | <i>ChemSpaceShuttle</i> : A tool for data mining in drug discovery by
classification, projection, and 3D visualization |
| 561 | | Instructions for Authors |
