

QSAR & Combinatorial Science

Volume 22, Number 7/2003
October 2003
Pages 711–818

QSAR Section

- 713 Petra Schneider, Gisbert Schneider **Full Paper:** Collection of Bioactive Reference Compounds for Focused Library Design
- 719 Andreas Schüller, Gisbert Schneider, Evgeny Byvatov **Full Paper:** SMILIB: Rapid Assembly of Combinatorial Libraries in SMILES Notation
- 722 Annalen Bleckmann and Jens Meiler **Full Paper:** Epothilones: Quantitative Structure Activity Relations Studied by Support Vector Machines and Artificial Neural Networks

Combinatorial Section

- 729 Catharina Klanner, David Farrusseng, Laurent Baumes, Claude Mirodatos, Ferdi Schüth **Review Article:** How to Design Diverse Libraries of Solid Catalysts?
- 737 Caspar Christensen, Thomas Groth, Christine Bruun Schiødt, Niels Tækker Foged, Morten Meldal **Review Article:** Automated Sorting of Beads from a “One-Bead-Two-Compounds” Combinatorial Library of Metalloproteinase Inhibitors
- 745 Meritxell Teixidó, Ignasi Belda, Xavier Roselló, Sonia González, Myriam Fabre, Xavier Llorà, Jaume Bacardit, Josep M. Garrell, Senen Vilaró, Fernando Albericio, Ernest Giralt **Full Paper:** Development of a Genetic Algorithm to Design and Identify Peptides that can Cross the Blood-Brain Barrier
1. Design and validation *in silico*
- 754 Caspar Christensen, Christine Bruun Schiødt, Niels Tækker Foged and Morten Meldal **Full Paper:** Solid Phase Combinatorial Library of 1,3-Azole Containing Peptides for the Discovery of Matrix Metallo Proteinase Inhibitors
