

Signs and Symbols in Occupational Safety.....	249
<i>Piktogramme und Zeichen im Arbeitsschutz</i>	249
Influence of color on importance of "to do" symbol <i>Jensen RC, Leonard SD.</i>	249
A comparison of different "to do" symbols <i>Leonard SD, Jensen RC.</i>	249
A cross-cultural comparison of learning a symbol "to do" <i>Smith-Jackson TL, Essuman-Johnson A, Leonard SD.</i>	250
Sign shape, text-symbol dimension and placement on visibility and understandability <i>Luximon A, Mkrtchyan P, Azatyan A, Azatyan A.</i>	250
Sign and symbols in Armenian industry <i>Luximon A, Danielyan AS, Gaginyan S.</i>	251
Perception of safety signs based on background, border and text color <i>Luximon A, Harutyunyan T, Karapetyan LR, Aslikyan GV, Vasilyan NS.</i>	251
Grip Forces and Ergonomic Hand Tool Design	252
<i>Greifkräfte und ergonomische Werkzeuggestaltung</i>	252
Ergonomic design of hand tools: A complex matter <i>Koningsveld, EAP, Eikhout SM, Groenesteijn L.</i>	252
The effect of task complexity and pace on grip forces, cutting moments, and wrist posture during a simulated meat cutting task <i>McGorry RW, Dempsey PG.</i>	252
Effects of grip force on discomfort when combined with wrist flexion and frequency of exertion <i>Khan AA, Gallwey TJ, O'Sullivan L.</i>	253
Effect on discomfort of grip force and shoulder abduction angles in repetitive clockwise forearm pronation / supination movements <i>Mukhopadhyay P, Gallwey TJ, O'Sullivan L.</i>	253
Evaluating the effect of screwdriver handle characteristics, greased handle surface, grip type, and direction of force exertion on torque MVC <i>Chung H-C, Kluth K, Strasser H, Wang M-JJ.</i>	254
Differences between anthropometrics of workers and college students in selected measurements <i>Quintana Jiménez LA, Schulze LJH.</i>	254
Work and Organization / <i>Arbeit und Organisation</i>	254
Competency Development and Organizational Learning.....	254
<i>Kompetenzentwicklung und Organisationales Lernen</i>	254
Development of competencies in fast growing companies <i>Selke A, Kauffeld S, Grote S, Frieling E.</i>	254
Computer based training of problem solving strategies in fault diagnosis <i>Schaper N, Hochholdinger S, Sonntag K.</i>	255
Which competencies apply in work groups when solving optimization tasks? <i>Kauffeld S.</i>	255
Emotional intelligence: Fatal attractions <i>Sieben B.</i>	255
Methods of measuring the learning potential of jobs <i>Bigalk D, Bernard H, Müller RF, Frieling E.</i>	256
Characteristics of organisational learning culture – An interview survey with experts from organisations and applied research <i>Schaper N, Friebe J, Sonntag K.</i>	256
An internet-based system for proactive employment consultancy, further training and job placement – Supra-regional staff transfer by RAG Bildung <i>Teichmann W, Schuler M.</i>	257
Strategies for Recruiting Human Resources in Enterprises and Networks	257
<i>Strategien zur verbesserten Nutzung von Humanressourcen in Unternehmen und Netzwerken</i>	257
Working conditions in industrial clusters <i>Wojda F, Waldner B, Mayrhofer W.</i>	257
Evaluation of competencies in enterprises and networks <i>Wank A, Winzer P.</i>	258
Occupational work as a predictor for development of motivation and competence <i>Bergmann B, Richter F, Eisfeldt D.</i>	258
Case studies: "Learning at the workplace" <i>Bernard H, Bigalk D, Müller RF, Frieling E.</i>	259
Measuring competences of insurance employees and trainees using simulated job tasks <i>Richter F, Bergmann B.</i>	259
Recording of unwanted events in the world of working <i>Linsenmaier B.</i>	259
Production disturbances and safety in manufacturing – The operator's role in information flow <i>Willquist P, Fjällström S.</i>	260
New Technologies and Participatory Ergonomics	260
<i>Neue Technologien zur Stärkung der Partizipation und Makro-Ergonomie</i>	260
Call center – A participatory office <i>Pregolato F.</i>	260
Organizational Strategies, Quality Management and Project Management	260
<i>Neue Formen der Betriebsorganisation, Qualitätsmanagement und Projektmanagement</i>	260
Working situation as a predictor for development of innovation <i>Eisfeldt D, Bergmann B.</i>	260
Managers perceptions of organisational change: The role of resources <i>Fritz S, Funk-Müldner K, Sonntag K.</i>	261
Integrated management systems – Solutions for national and international challenges of tomorrow <i>Montague G.</i>	261
An innovative self-assessment method on the way to organisational excellence <i>Schnauber H, Raptakis N, Steinkötter U.</i>	262

Regionalisation and the virtual manufacturing organisation <i>Harvey RJ, Adlbrecht G</i>	262
A decision support system for bid evaluation in project management <i>Ray PS, Aggarwal A, Moyihan GP, Bishop PB</i>	262
Management of Occupational Safety and Health.....	263
<i>Arbeitsschutz-Management-Systeme</i>	263
Management integration of ergonomics, safety and quality issues: Perception of organizational needs <i>Karwowski W, Dzissah J</i>	263
A model of an integrated management system of OSH and ergonomics <i>Podgórski D</i>	263
Application of process management tools to improve organization performance in occupational safety and health <i>Pecillo M</i>	264
Cost-benefit analysis of occupational safety and health management in the enterprises <i>Rzepecki J</i>	264
Shaping safety culture in a company and its relationship with worker's safety behaviour at work and outside work <i>Milczarek M</i>	264
Evaluation of an occupational safety training in small and medium sized enterprises of the chemical industry <i>Elsler D, Corth C</i>	265
Planung von Arbeits- und Geschäftsprozessen.....	265
<i>Planning of Work and Business Processes</i>	265
Verbesserung der Geschäftsprozesse von Generalplanern durch Aufbau und Nutzung von Erfahrungen und (Fach-)Wissen – Eine Fallstudie <i>Hoss C, Mackau D, Hinrichsen S</i>	265
Herausbildung neuer Performancegrößen aus logistischen und humanen Beurteilungskriterien für Organisationsstrukturen <i>Koruca HI, Kurbanoglu C, Fischer J, Zülch G</i>	266
Unternehmensmonitoring als Basis für kontinuierliche Unternehmensentwicklungsprozesse <i>Ohm S</i>	266
Effektives Change Management im Spannungsfeld von situativen Anforderungen und betrieblichen Voraussetzungen <i>Strohm O</i>	267
Zukunftsfähige Arbeitsforschung.....	267
<i>Innovative Labor Planning</i>	267
Kooperationsnetz prospektive Arbeitsforschung – KoprA <i>Sauer D, Knoblach B</i>	267
Partizipation und interaktive Interdisziplinarität für eine zukunftssträchtige Arbeitsforschung – PIZA <i>Frevel A</i>	268
Wald-Arbeit-Land-Dienstleistung (wald) – Innovative Arbeitsforschung für ländliche Räume <i>Lewark S, Kastenholz E</i>	268
“Der neue Blick auf die Arbeit”: Innovative Potentiale einer geschlechtssensiblen Arbeitsforschung <i>Correll L, Janczyk S</i>	268
Datenbanken, World-Wide-Web und Simulationsmethoden zur Verbesserung des Personaleinsatzes.....	268
<i>Data Bases, the World-Wide Web, and Simulation Tools to Improve Recruiting of Human Resources and Man-Machine Interaction</i>	268
Computer-simulations of physical interactions between human and its environment <i>Jödicke R, Härtel T, Bikowski S, Wolf C-D</i>	268
Flexible und mobile Werkzeugmaschinenbenutzung durch den Einsatz von Sprachverarbeitung <i>Hoymann H, Weck M</i>	269
SWOF – Ein Baukastensystem für Shared Workspaces zur flexiblen Kooperationsunterstützung <i>Künzer A, Röse K, Schmidt L</i>	269
ADAB – Datenbank körperlicher Belastungsstrukturen für Bauberufe <i>Hartmann B, Necker H, Werner S</i>	270
Design patterns for web-based experiment control <i>Kindsmüller MC, Leuchter S, Urbas L</i>	270
Schwachstellen- und Anforderungsanalyse heutiger E-Recruiting-Aktivitäten und Prognosen für die Zukunft <i>Bruns I, Oehme O, Luczak H</i>	271
Communication and Information Technologies.....	271
<i>Kommunikations- und Informations-Technologien</i>	271
Analysis of communication in nuclear power plant <i>Fukuda R, Voggenberger T, Sträter O, Bubb H</i>	271
The non-compatibility between technological systems and people in terms of communication.....	272
<i>Alm I</i>	272
Analysis of communication-processes in the development of complex products <i>Zöllner jr. R</i>	272
Health promotion in information technologies <i>Timm E, Klemens S, Wieland R</i>	272
Work System “Hospital” I.....	273
<i>Arbeitssystem „Krankenhaus“ I</i>	273
Security and reliability of clinical work processes <i>Friesdorf W, Göbel M</i>	273
Analysis of an intensive care unit <i>Held J</i>	273
Prozessorientierte Systemanalyse – Ergebnisse einer Fallstudie <i>Manser T, Rall M, Wehner T</i>	274
A syntax for the recording of work processes <i>Held J</i>	274
Agent-based information management in an emergency room <i>Franck M, Göbel M, Friesdorf W</i>	275
