

III) Evaluation of Randomized Controlled Trials

1.1. Subjective symptoms without clinical signs (C 0, S) Small veins with symptoms (C 1, S) Reporter: A. Cornu-Thénard	20	1.12. Active ulcer (C 6) Reporter: Chr. Moffatt	27
1.2. Small veins (C1) after sclerotherapy or Laser treatment Reporter: M. Goldman	21	Reporter: H. Partsch	29
1.3. Large varicose veins (C 2, A) Reporter: E. Rabe	22	2.1. Prevention of venous thromboembolism Reporter: J. Caprini	29
1.4. Large varicose veins, symptomatic (C 2, S) Reporter: J.-P. Benigni	22	2.2. Prevention of flight thrombosis Reporter: J. Caprini	30
1.5. C2 pregnancy Reporter: AA. Ramelet	23	Reporter: H. Partsch	30
1.6. Large varicose veins after surgery Reporter: M. Perrin	23	Overview LONFLIT studies: G. Belcaro	31
1.7. Large varicose veins after sclerotherapy, endovenous Laser or Radiofrequency closure Reporter: R. Weiss	25	2.3. Early onset compression therapy of deep vein thrombosis (DVT) Reporter: W. Blättler	31
1.8. Venous oedema (C 3) Reporter: M. Jünger	26	2.4. Prevention of postthrombotic syndrome (PTS) Reporter: H. Partsch	32
1.10. Skin changes (lipodermatosclerosis, atrophie blanche) (C 4b) Reporter: H. Partsch	26	2.5. Lymphoedema, Lipoedema Reporter: A.Cavezzi	33
1.11. C5 Healed ulcer Reporter: M. Neumann	26		

Appendix I: Indications for Compression Therapy and Levels of Recommendations Based on RCT's and Systematic Reviews (Summary)

36

Appendix II: Outcome Parameters for Future Trials on Compression Therapy
