

QSAR & Combinatorial Science

Volume 22, Number 9 – 10/2004
January 2004
Pages 915 – 1066

QSAR Section

- 917 S. H. Hilal, S. W. Karickhoff,
L. A. Carreira and B. P. Shrestha **Full Paper:** Estimation of Carboxylic Acid Ester Hydrolysis Rate Constants
- 926 Oleg A. Raevsky and Klaus-J. Schaper **Full Paper:** Analysis of water solubility data on the basis of HYBOT descriptors.
Part 1. Partitioning of volatile chemicals in the water-gas phase system
- 943 Klaus-J. Schaper, Brigitte Kunz and
Oleg A. Raevsky **Full Paper:** Analysis of water solubility data on the basis of HYBOT descriptors
Part 2. Solubility of liquid chemicals and drugs
- 959 Glen E. Kellogg, Sharangdhar Phatak,
Anthony Nicholls and J. Andrew Grant **Full Paper:** Validation of Poisson-Boltzmann Electrostatic Potential Fields in 3D QSAR: A CoMFA Study on Multiple Datasets
- 965 Anil K. Saxena and Klaus-
Jürgen Schaper **Full Paper:** QSAR analysis of the time dependent hypotensive activity of
1-[3-(4-substituted phenylthio)propyl]-4-(3,4-substituted phenyl)piperazines using Artificial Neural Networks
- 984 Anna Maria Almerico,
Antonino Lauria, Marco Tutone,
Patrizia Diana, Paola Barraja,
Alessandra Montalbano,
Girolamo Cirrincione and
Gaetano Dattolo **Full Paper:** A Multivariate Analysis on Non-nucleoside HIV-1 Reverse Transcriptase Inhibitors and Resistance Induced by Mutation
- 997 M. A. Safarpour, B. Hemmateenejad,
R. Miri and M. Jamali **Full Paper:** Quantum Chemical-QSAR Study of Some Newly Synthesized 1,4-Dihydropyridine Calcium Channel Blockers
- 1006 Nina Nikolova and Joanna Jaworska **Review Paper:** Approaches to Measure Chemical Similarity – a Review
