

Contents

Editorial: Some Observations on Scientific Publishing <i>T. B. Ferguson</i>	3
Obituary – Prof. Dr.-Ing. Helmut “Paul” Reul	9
FDA Regulation of Medical Devices – An Overview <i>C. M. Meyers</i>	10
Clinical Experience with a New “Minimally Invasive Circulatory Support System” (CardioVention CORx-System) for Coronary Artery Bypass <i>J. Wippermann, J. M. Albes, M. Kaluza, H. Brandes, M. Hartrumpf, Th. Wahlers</i>	13
Successful Heart Transplantation after Mechanical Circulatory Support with the POLCAS® System in a Case of Cardiogenic Shock due to Idiopathic Giant-Cell Myocarditis (IGCM) <i>R. R. Favalaro, S. V. Perrone, F. R. Klein, P. Klin, C. B. Gómez, J. Abud, G. Blanco, P. Comignani, O. Ferro</i>	18
Socio-Economical and Ethical Problems in the Organ Replacement Surgery <i>K. Atsumi</i>	20
The Burden of Heart Disease in Canada – What are the Perspectives for the Future Development? <i>J. G. Fodor, K. B. Adamo</i>	23
Design, Construction, and Testing of a Manually Portable Prototype Device for Prolonged Cryostorage of Hearts <i>J. E. Molina, A. L. Rivard, S. A. Prindle, J. C. Bischof, R. M. Christen, L. L. Kinney</i>	26
Cytoarchitecture of the Cardiac Conduction System, with Special Reference to Tawara’s Sketches <i>T. Shimada, T. Miyamoto, K. Sueda, T. Yamaguchi, M. Watanabe</i>	34
Distribution of the AV Nodal Tissue in Both Atria: With Reference to its Arrhythmogenicity <i>S. Inoue, T. Matsuyama, G. Ogawa, M. Tokunoh, Y. Kobayashi, F. Yoshida, H. Ota, T. Katagiri</i>	43
Conduction Disturbances and Inflammatory Heart Disease <i>C. Piper, D. Horstkotte</i>	47
Coronary Venous Anatomy by Retrograde Venography <i>M. Yoda, B. Hansky, J. Vogt, K. Minami</i>	51
Sunao Tawara’s Six Letters to Ludwig Aschoff <i>M. Shimada</i>	57
Electrode Placement Significantly Affects Transthoracic Atrial Defibrillation Thresholds <i>L. C. Hunt, A. L. de Jongh Curry</i>	62
Stents Cause Flow Disturbances in Coronary Arteries: A Study using Laser-Doppler-Anemometry (LDA) <i>A. Sakurai, D. Liepsch, Th. Schmid, H. Breidfuss, M. Hilber, H. Berger, S. Schwarzacher</i>	69
Calculation of Haemorheological Properties for Cardiovascular Diagnosis based on Ultra Sound Measurements of Velocity Profiles <i>M. Alizadeh, G. Benderoth, S. Kasseckert, M. Rzepka, M. Stanull, S. Vogt, R. Moorsdorf, G. Silber</i>	81
Scientific Program MCS 2004, December 1 – 4, 2004	94
