1 Palliativmedizin in der gynäkologischen Onkologie

Palliative Medicine in Gynecological Oncology

Haller, U. (Zürich); Hepp, H. (München); Winter, R. (Graz)

In palliative medicine, the tumor-centered has to give way to a patient-centered view, and palliative care concerns all patients independently of the type and stage of their disease.

Schwerpunkt: Gynäkologische Infektiologie

3 Einführung zum Schwerpunkt «Gynäkologische Infektiologie»

Introduction to the Focal Topic 'Gynecological Infectiology'

Petersen, E.E. (Freiburg)

After the discovery of microorganisms and the development of effective antibiotics, the interest in infections has been lost and the gap between theoretical knowledge (of the microbiologists) and practical use widens continually.

5 Vulvovaginale Erkrankungen: Unterscheidung zwischen behandelungsfähigen Infektionen und anderen Ursachen

Vulvovaginal Diseases: Differentiation between Treatable Infections and Other Causes

Petersen, E.E. (Freiburg)

The different diseases of the vulva are discussed by grouping them under the general terms of pruritus, burning pain and contact pain.

14 Adnexitis und «Pelvic Inflammatory Disease»

Adnexitis and Pelvic Inflammatory Disease

Lauper, U.; Schlatter, C. (Zürich)

As more than 30% of infections of the upper female genital tract are subclinical or asymptomatic, young, sexually active women should undergo a general screening for pelvic inflammatory disease.

19 Klinische Bedeutung der Antibiotikaresistenz in Gynäkologie und Geburtshilfe

Clinical Relevance of Antibiotic Resistance in Obstetrics and Gynecology

Ruef, C. (Zürich)

Antibiotic resistance of pathogens causing urogenital infections is a growing problem of clinical relevance in obstetrics and gynecology, resulting in very limited options for treatment, especially during pregnancy.

Originalarbeiten

28 Sentinel-Lymphonodektomie – Der neue operative Standard für die Evaluation der Axilla: Ein Überblick. 1. Teil

Sentinel Lymphonodectomy – New Surgical Standard for the Evaluation of the Axilla: An Overview. Part 1

Rageth, C.J.; Scholl, B.; Sarasin, E.; Saurenmann, E. (Zürich)

Although no long-term experience exists, thanks to its reduced morbidity sentinel lymphonodectomy has become the new standard in the primary treatment of breast cancer.

39 Abort- und Frühgeburtenrate nach akuter Mumpsinfektion in der Schwangerschaft

Frequency of Spontaneous Abortion and Premature Birth after Acute Mumps Infection in Pregnancy

Enders, M.; Rist, B.; Enders, G. (Stuttgart)

Acute mumps infection during pregnancy is rare, and therefore data on its consequences on pregnancy outcome are limited.

Konsensus

44 Guideline zum Vorgehen bei suspektem und positivem zytologischen Abstrich der Cervix uteri (überarbeitete Fassung, Version 2.4)

Arbeitsgruppe «Guideline Zervixabstrich»
