60 Geburtshilfliche Sonographie – Segen oder Sorgen?

Obstetric/Prenatal Ultrasound: Blessing or Burden?

Winter, R. (Graz); Kimmig, R. (Essen); Fink, D. (Zürich)

Training, certification and quality control in ultrasound should be established on a European level.

Schwerpunkt: Geburtshilfliche Sonographie

62 Sinn und Grenzen der geburtshilflichen Sonographie

Significance and Limitations of Obstetrical Ultrasound

Hackelöer, B.-J. (Hamburg)

The contents of the 3-point screening obstetrical ultrasound examination and of a multilevel-concept are discussed.

73 Die Entwicklung der geburtshilflichen Sonographie in der Schweiz

The Development of Obstetric Ultrasound in Switzerland

Zimmermann, R. (Zürich)

Today, ultrasound is an integral part of antenatal care although linked with several conditions: appropriate training and experience of the performing physician, sufficient information of the patient and evidence of its benefit.

78 Ausbildung, Ausübung und zunehmende Verrechtlichung des Ultraschalls in Gynäkologie und Geburtshilfe in Österreich

Training, Practice and the Increasing Dominance of Legal Aspects in Ultrasound in Obstetrics and Gynecology in Austria

Brezinka, C. (Innsbruck)

The impact of two court cases on the teaching and clinical application of ultrasound in obstetrics and gynecology in Austria is discussed.

86 Screening auf Chromosomenanomalien im ersten Trimenon

Screening of Chromosome Anomalies during the First Trimester

Krampl, E. (Wien)

A very effective screening for chromosome anomalies, e.g. trisomy 21, can be carried out during the first trimester and should be made available to every expectant mother.

Übersichtsarbeit

93 Stirbt die Schweiz aus? Demografische Fakten und Perspektiven zur heutigen Reproduktionssituation in Europa

Are the Swiss Dying Out? Demographic Facts and Perspectives concerning the Current Situation of Child-Bearing in Europe

Tönz, O. (Luzern)

In the last decades, birthrates of the native population in Switzerland and other European countries have decreased so severely that long-term survival of these nations seems unlikely unless counterbalanced by immigration and naturalization of foreign people or by changing the natives' procreative behavior.

Originalarbeiten

107 Morbidität einzeitiger Abortausräumungen im 2. Trimenon: Eine Standortbestimmung
Morbidity of Dilatation and Evacuation in the Second Trimester: An Analysis

Pauli, E.; Haller, U.; Zimmermann, R. (Zürich)

Dilatation and evacuation (DE) for termination of pregnancy in the second trimester is a safe procedure, associated with lower morbidity than the induction of abortion with prostaglandins, but carries more risks than DE performed in the first trimester of pregnancy.

116 Sentinel-Lymphonodektomie beim Mammakarzinom – Eigene Erfahrungen. 2. Teil
Sentinel Lymphonodectomy in Breast Cancer – Our Own Experience. Part 2

Rageth, C.J. (Zürich/Schlieren); Scholl, B.; Sarasin, E. (Zürich); Saurenmann, E. (Zürich/Schlieren)

Sentinel lymphonodectomy has a learning phase until it can be offered as a single procedure without complete axillary dissection.
