

## List of contents

100<sup>th</sup> Annual Meeting of the Anatomische Gesellschaft, Leipzig, Germany,  
March 11 - March 14, 2005

### Main Topic I

#### Locomotor System - From Biomechanics to Cell Biology

##### Lectures

Richter W: Chondrogenic differentiation: from mesenchymal stem cells to hypertrophy	2
Hunziker EB : Potential and limitation of the adult stem cells population in synovial membranes for chondrogenic transformation in cartilage repair	2
Pufe T, Kurz B, Mentlein R, Lemke A, Petersen W, Goldring MB, Varoga D, Tillmann B : The influence of biomechanical parameters on the expression of growth factors and their antagonists in the bone and joint system	3
Eckstein F, Hudelmaier M, Putz R: Analysis of mechanical function and competence of musculoskeletal tissue at the supra-cellular level	3
Kurz B, Lemke A, Fay J, Pufe T, Grodzinsky AJ, Sandy JD, Schünke M: Pathomechanisms of cartilage destruction	4
Shakibaei M : Roles of chondrocytes in the pathogenesis of osteoarthritis	4
Paulsen F : Antimicrobial peptides – regulation and function in articular joints	5
Petersen W, Becker R, Stärke C, Fuchs T, Raschke M, Tillmann B, Pufe T: Locally applied angiogenetic factors – a new therapeutic tool for meniscus repair?	5

##### Short Communications

Lüdinghausen von M, Prescher A: Accessory joints between basiocciput and atlas/axis in the median plane: congenital and acquired peculiarities	6
Svejda M, Kuhn V, Matsuura M, Putz R: Functional structure of the head of mandible	7
Matsuura M, De Souza R, Eckstein F, Pitsillides A: Effect of neurectomized and/or mechanical loading on trabecular bone of the mouse tibia	7
Milz S, Boszczyk AA, Boos W, Korge A, Mayer HM, Putz R, Benjamin M, Boszczyk BM: Expression of extracellular matrix antigens in the tissue bridging spondylolytic defects in the lumbar spine	8
Miosge N, Zelent C, Tesche F: Primary human chondrocytes from late stages of osteoarthritis: fibroblast-like cells redifferentiate more rapidly than normal chondrocytes in vitro	9
Claassen H, Steffen R, Schünke M, Kurz B: Influence of estradiol on the synthesis of matrix metalloproteinase 1 (MMP-1), tissue inhibitor of metalloproteinases 1 (TIMP-1) and on oxygen radical-induced damage in cultivated articular chondrocytes	9
