Short Communications

Tränkner A, Ricken AM, Merkwitz C, Grosche J, Spanel-Borowski K: Expression of prolactin receptor isoforms in endothelial cells of bovine corpora lutea	20
Scaal M, Gros J, Christ B, Marcelle C: Spatial and temporal regulation of avian myotome formation	20
Geetha Loganathan P, Nimmagadda S, Pröls F, Scaal M, Huang R, Christ B: Two different pathways during limb myogenesis	21
He L, Scaal M, Christ B, Huang R: Timing of angiogenic versus myogenic specification of dermomyotomal cells in the limb	21
Bonafede A, Köhler T, Brand-Saberi B: Does BMP cause a migration defect or switch in cell fate?	22
Yusuf F, Dathe V, Dai FP, Pröls F, Gamel A, Brand-Saberi B: The role of Thymosin beta 15 in muscle development	22
Dai FP, Weise C, Ying K, Kirsch M, Kohlhase J, Brand-Saberi B: Identification of candidate genes involved in a novel myopathy	23
Ergün S, Oliveira Ferrer, Tilki D, Irmak S, Hauschild J, Malkanthi Fernando, Kilic N, Friedrich M, Hulan H: CEACAM1: One molecule - two inverse ways of signalling in angiogenesis and lymphangiogenesis	24
Schumacher U, Lukacs Z, Kaltschmidt C, Brammer I, Krempl T, Santer R, Lorke DW, Ullrich K: High phenylalanine concentrations activate peroxisome proliferator-activated receptor α and thus alter gene expression in phenylketonuric patients	24
Müller S, Hofmann HD, Kirsch M: Neurogenesis in the adult dentate gyrus is regulated by CNTF	25
Brichová H: Astrocyte - microglia interrelation in the process of ageing of CA1 of hippocampus in rat	25
Frotscher M, Sloviter RS: Lesion-induced sprouting of hippocampal mossy fibers: Synaptic contacts with GABAergic interneurons	26
Förster E, Géraud C, Rigato F, Frotscher M: A role for reelin in axonal outgrowth of hippocampal neurons	27
Zhao S, Chai X, Förster E, Frotscher M: Rescue of granule cell orientation and the layer-specific termination of commissural fibers in reeler hippocampus by wild-type coculture	27
Fester L, Rune GM: Differentiation of hippocampal neurons after genetic suppression of steroidogenesis	28
Prange-Kiel J, Fester L, Lauke H, Carretero J, Martina Boettner, Zhou L, Rune GM: Estrogen functions in an autocrine manner in rat hippocampus	28
