

Steger K, Fenic I, Sonnack V, Bergmann M: Histone hyperacetylation and its role for histone-to-protamine exchange and male fertility .....	230
Strelau J, Popovici C, Herold-Mende C, Steiner H, Unsicker K: Expression of GDF-15 in human glioma and its functions in glioblastoma cell lines .....	231
Strzelczyk A, Strelau J, Bendner G, Klein R, Unsicker K: Growth/differentiation factor-15 knockout mice develop with deficits in motoneuron sub-populations .....	231
Timmer M, Krampfl, Großkreutz J, Schlesinger F, Wesemann M, Just L, Büfler J, Grothe C: Expanded and differentiated neural precursors develop into functional dopaminergic cells with active calcium-permeable AMPA receptors and improve behaviour after transplantation .....	232
Vogt J, Zipp F, Schmitz C, Nitsch R: Früher und massiver neuronaler Zellverlust stellt die Experimentell Autoimmune Encephalomyelitis als Tiermodell für die Multiple Sklerose in Frage .....	233
Walch M, Dumrese C, Barman H, Latinovic S, Eppler E, Groscurth P, Ziegler U: Uptake of granulysin to kill <i>Listeria innocua</i> in human dendritic cells is mediated via lipid rafts .....	233
Waschke J, Drenckhahn D: Rac1 wird durch cAMP reguliert und hemmt den durch PAF induzierten Permeabilitäts-anstieg in postkapillären Venulen in vivo .....	234
Washausen S, Obermayer B, Brunnett G, Kuhn HJ, Knabe W: Apoptose und Proliferation in Epibranchialplakoden .....	234
Yilmazer-Hanke DM, Fritz R, Roskoden T, Schwegler H, Linke R: Non-collateralization of central amygdalar efferents projecting to the substantia innominata and the magnocellular pontine nucleus of the rat .....	235
Zengin E, Chalajour F, Ito W, Gehling U, Treede H, Lauke H, Ergün S: Die Rolle von CD34-positiven Vorläuferzellen in der Wand adulter Blutgefäße bei der Angiogenese .....	235

#### Poster

Abola Z, Pilmane M, Boka S, Petersons A: Esophageal atresia and its morpho-functional characterisation .....	237
Althaus J, Siegelin M, Touzani O, Toutain J, Rami A: Transient focal ischemia activate neuronal death through the Bcl-2 family protein BNIP3 .....	237
Bach A, Mühlbauer E, Peschke E: Melatonineinflüsse auf die cAMP-Signalkaskade der INS1-Zelle sind nicht durch Expressionenveränderungen der mRNA der Adenylatzyklase oder des MT1-Rezeptors verursacht .....	238
Bach C, Steffl M, Brehm H, Wanke R, Amselgruber WM: Three-dimensional architecture of podocytes in different domestic animals .....	239
Baillot G, Grothe C, Claus P: Screening for differentially regulated genes in fibroblasts of spinal muscular atrophy patients .....	239
Barham M, Andermahr J, Lee J, Neiss WF: Successful reinnervation without recovery of motor function up to one year after sciatic axotomy in rat .....	240
Behrendt M, Kriegelstein K: Molecular characterization of Tieg3, a new member of Transforming Growth Factor- $\beta$ - (TGF- $\beta$ ) inducible Sp1-like zinc finger encoding genes and its role in the developing mouse retina .....	240
van Bergeijk J, Haastert K, Grothe C, Claus P: Neurite outgrowth and the survival of motoneuron (SMN) protein in PC12 cells .....	241
Bienengräber V, Malek FA, Möritz KU, Fanghänel J: Effects of prenatal folic acid supplementation on procarbazine-induced fetotoxicity in rats .....	241

Blottner D, Salanova M, Pütz M: Vibration exercise malnutrition in human soleus muscle (Study 2003) .....	
Blumer MJF, Longato S, Friedl P, Böhler H, Halbach O von, Grothe C: Myelinated axons in <i>trkB</i> deficient mice .....	
Bolinteanu S, Brad S, Vaicari A: Investigation in the priming of the arterial vasculature .....	
Brandes G, Wewetzer K: Functional properties of gap junctions in the rat .....	
Brehm R, Fischer P, Klieber M, Bergmann M: The gap junctional protein connexin36 is essential for myenteric neurons .....	
Brichová H: Neuron-astrocyte interactions and calcium signaling in the rat .....	
Bruggeman P, Baumgartner R, Hähnsle U, Hähnsle U, Hähnsle U: Häufigkeit und Charakteristika von Migräne bei Kindern .....	
Brunk I, Winter S, Höltje M, Nitsch R: Inhibition of vesicular transport by the small GTPase Rac1 .....	
Budde A, Pabst R, Nave H-H: Progenitors with DsRed expression in the adult mouse brain .....	
Chankiewicz E, Preiß U, Fritschy JM: Melatonin-Tagesprofile bei Tieren sowie Patienten .....	
Chircor L, Roman C, Pászti A: Lip/cleft palate .....	
Claassen H, Schmitt O, Wenzel R: Unterschenkelarterienklaudikation: Arterienbauplan von Säuglingen .....	
Clausen J, Oleschko G, Zipp F: Transporting systems in the rat brain .....	
Dolapchieva SD: Formation of the PNS .....	
Dontchev V, Kondov N, Durrwagner P: The axonal growth of chondrocytes .....	
Douglab A, Doaa Z: The role of the gut in the development of the Intestine's Circle .....	
Dumrese C, Maurus CF, Grothe C: Chlamydia pneumoniae infection of the mouse ureter .....	
Fedorischin R., Zenin OK, Grothe C: Eigenschaften von Schwannsche Zellen .....
