Volume 46, Number 1

BEHAVIOUR, WELFARE, HUSBANDRY & ENVIRONMENT

Use of the range area in organic egg production systems: effect of climatic factors, flock size, age and artificial cover. L. Hegelund, J.T. Sørensen, J.B. Kjær and I.S. Kristensen 1

Design of laying nests in furnished cages: influence of nesting material, nest box position and seclusion. E. Struelens, F.A.M. Tuytens, A. Janssen, T. Leroy, L. Audoorn, E. Vranken, K. De Baere, F. Ödberg, D. Berckmans, J. Zoons and B. Sonck 9

Effects of different management factors on broiler performance and incidence of tibial dyschondroplasia. M. Petek, G. Sönmez, H. Yildiz and H. Baspinar 16

*Rearing Greater Rhea (*Rhea americana*) chicks: is adoption more effective than the artificial intensive system?* F.R. Barri, J.L. Navarro, N.O. Maceira and M.B. Martella 22

*Influence of *Dermamyssus gallinae* and *Ascaridia galli* infections on behaviour and health of laying hens (*Gallus gallus domesticus*).* O. Kilpinen, A. Roepstorff, A. Permin, G. Nørgaard-Nielsen, L.G. Lawson and H.B. Simonsen 26

GENETICS

Genetic parameters of ascites-related traits in broilers: effect of cold and normal temperature conditions. A. Pakdel, J.A.M. van Arendonk, A.L.J. Vereijken and H. Bovenhuis 35

Genetic parameters of ascites-related traits in broilers: correlations with feed efficiency and carcass traits. A. Pakdel, J.A.M. Van Arendonk, A.L.J. Vereijken and H. Bovenhuis 43

Heritability of sudden death syndrome and its associated correlations to ascites and body weight in broilers. H.K. Moghadam, I. McMillan, J.R. Chambers, R.J. Julian and C.C. Tranchant 54

IMMUNOLOGY & MICROBIOLOGY

*Use of *Trichosporon mycotoxinivorans* to suppress the effects of ochratoxinosis on the immune system of broiler chicks.* I. Politis, K. Fegeros, S. Nitsch, G. Schatzmayr and D. Kantas 58

NUTRITION

Soft wheat instead of hard wheat in pelleted diets results in high starch digestibility in broiler chickens. B. Carré, N. Muley, J. Gomez, F.-X. Oury, E. Laffitte, D. Guillou and C. Signoret 66

Effect of enzyme supplementation on the metabolisable energy content of solvent-extracted rapeseed and sunflower seed meals for chicken, guinea fowl and quail. A.B. Mandal, A.V. Elangovan, Pramod K. Tyagi, Praveen K. Tyagi, A.K. Johri and S. Kaur 75

Effects of dietary conjugated linoleic acid and high-oleic sunflower oil on performance and egg quality in laying hens. C. Alvarez, P. García-Rebollar, P. Cachaldora, J. Méndez and J.C. De Blas 80

Effects of dietary boron supplementation on some biochemical parameters, peripheral blood lymphocytes, splenic plasma cells and bone characteristics of broiler chicks given diets with adequate or inadequate cholecalciferol (vitamin D₃) content. F. Kurtoğlu, V. Kurtoğlu, İ. Çelik, T. Keçeci and M. Nizamlioğlu 87

Breeder hen dietary L-carnitine affects progeny carcass traits. M.T. Kidd, C.D. McDaniel, E.D. Peebles, S.J. Barber, A. Corzo, S.L. Branton and J.C. Woodworth 97

Dietary n-3 and n-6 fatty acids alter avian glucose metabolism. R.E. Newman, W.L. Bryden, A.C. Kirby, L.H. Storlien and J.A. Downing 104

PHARMACOKINETICS

Sustained availability of trimethoprim in drinking water to achieve higher plasma sulphonamide-trimethoprim antibacterial activity in broilers. H. Sumano, L. Hernandez, L. Gutierrez and M.J. Bernad-Bernad 114

PHYSIOLOGY, BIOCHEMISTRY & NEUROBIOLOGY

*Fertility and hatchability in RIR and WL breeds as functionally modified by crossing them in alternate sex combinations (*Gallus domesticus*).* G. Zelleke, R.P. Moudgal and A. Asmare 119

BOOK REVIEW

Biostatistics for Animal Science. M. Allen 124
