

<i>Page</i>	<i>Abstract- Number</i>	
29	O 18	<i>L. Golding, K. Doi, A. Massiello, D. Horvath, Y. Ootaki, K. Fukamachi: Preclinical Testing of the CorAide™ Ventricular Assist System</i>
30	O 19	<i>P. Khanwilkar, G. Jacobs, S. Miles, J. Antaki, C. Chen, B. Paden, G. Bearson, D. Paden, J. Long: HeartQuest™ VAD: Progress Towards Viable Destination Therapy</i>
30	O 20	<i>C. Nojiri, G. Harris, M. McCartney, J. Maekawa, M. Yanai, N. Sugiura, D. Olsen, G. Burns: Current Status of the Duraheart LVAS – A Mag-Lev Centrifugal Pump</i>
30	O 21	<i>O. Marseille, C. Benk, S. Beholz, M. Kessler: 2 Years Clinical Experience with the Deltastream Blood Pump System</i>
31	O 22	<i>A. Baba, P. Dobsak, I. Saito, T. Isoyama, K. Takiura, M. Shibeta, Y. Abe, T. Chinzei, J. Vasku, K. Imachi: Effect of Pulsatility on Conjunctival Microcirculation of the Goat with Implanted an Undulation Pump Total Artificial Heart</i>
31	O 23	<i>T. Yambe, Y. Shiraishi, Y. Abe, K. Imachi, I. Saito, S. Mochizuki, Y. Mitamura, M. Umezu, T. Matsuda, E. Okamoto, S. Nitta: Organ Circulation during Left Ventricular Assistance with the Implantable Undulation Type Ventricular Assist Device</i>
31	O 24	<i>D. Zimpfer, D. Haider, M. Czerny, W. Roethy, J. Kilo, F. Vogt, H. Schima, G. Wieselthaler, E. Wolner, M. Grimm: Neurocognitive Function in Patients with Ventricular Assist Devices</i>
32	O 25	<i>A. Ündar, H. C. Eichstaedt, F. J. Clubb Jr, M. Fung, M. Lu, J. E. Bigley, B. Deady, A. Porter, W. K. Vaughn, S. A. Stayer, D. B. Andropoulos, C. D. Fraser Jr.: Anesthetic Induction with Ketamine Inhibits Platelet Activation before, during, and after Cardiopulmonary Bypass in Baboons</i>
33	O 26	<i>T. Mizuno, E. Tatsumi, T. Nishinaka, N. Katagiri, Y. Shirakawa, T. Tsukiya, A. Homma, Y. Takewa, H. Takano, S. Kitamura, Y. Taenaka: The Chronic Effects on the Lungs in the Goat following Up-to-Five-Month Venoarterial Bypass using an Extracorporeal Membrane Oxygenation</i>
33	O 27	<i>H. Schima, M. Vollkron, L. Huber, G. Morello, B. Benkowski, M. Quittan, G. Wieselthaler: Clinical Experiences with a Physiologically Adaptive Control of Rotary Blood Pumps and its Performance in Crucial Situations</i>
33	O 28	<i>K. Reesink, A. Dekker, T. van der Nagel, H. Blom, C. Soemers, G. Geskes, J. Maessen, E. van der Veen: Physiologic Insensitive Left Ventricular Assist may Predispose Right-sided Circulatory Failure: A Pilot Simulation and Validation Study</i>
34	O 29	<i>K. Graichen, P. Nüsser, F. Deus, R. Breuel, W. Neumann, M. Göllner, J. Müller: Sensor-based Absolute Pressure Monitoring in an Axial Blood Pump</i>
34	O 30	<i>H. Schima, M. Vollkron, L. Huber, W. Roethy, G. Wieselthaler: Necessities for Patient and Device Monitoring during the Various Phases of Circulatory Support</i>
35	O 31	<i>A. Arndt, P. Nuesser, K. Graichen, T. Merkel, J. Hoffmann, P. Goettel, V. Gaydos, J. Mueller: Suction Control of an Axial Flow Blood Pump with a Magnetically Suspended Rotor</i>
35	O 32	<i>H. Yamagishi, Y. Sankai, T. Tsutsui: Development of the Implantable Data Communication Unit using Bluetooth</i>
35	O 33	<i>S. M. Patel, P. E. Allaire, H. G. Wood, J. M. Adams, D. B. Olsen: A Failure Modes and Effects Analysis for Mechanical Circulatory Support Systems</i>
