

Inhaltsverzeichnis

<i>Vorwort</i>	1
<i>Review Articles</i>	
Vaccines against traveler's diarrhoea and rotavirus disease – a review (Wiedermann, U., Kollaritsch, H.)	2
Genetic vaccination approaches against malaria based on the circumsporozoite protein (Scheiblhofer, S., Weiss, R., Thalhamer, J.)	9
Relevance of parasitological examinations for the clinical course, epidemiology and prevention of alveolar echinococcosis – experiences of more than two decades in Austria (Auer, H.)	18
Mites as a cause of zoonoses in human beings (Beck, W., Pfister, K.)	27
An introduction into bioethics and parasitology (Hassl, A.)	33
<i>Original Articles</i>	
Comparison of the proteome profiles of <i>Entamoeba histolytica</i> and its close but non-pathogenic relative <i>Entamoeba dispar</i> (Leitsch, D., Wilson, I. B., Paschinger, K., Duchêne, M.)	37
Development of a pharmacodynamic screening model with <i>Crithidia fasciculata</i> (Tasanor, O., Engelmeier, D., Brem, B., Wiedermann-Schmidt, U., Greger, H., Wernsdorfer, W. H.)	42
Optimized Malaria-antigens delivered by immunostimulating reconstituted influenza virosomes (Westerfeld, N., Pluschke, G., Zurbriggen, R.)	50
In vitro antimalarial drug resistance in Southeastern Bangladesh (Atlmayr, B., Thriemer, K., Haque, R., Wagatsuma, Y., Salam, M. A., Akhter, S., Fukuda, M., Schaecher, K., Miller, R. S., Noedl, H.)	58
In vitro interaction between artemisinin and chloroquine as well as desbutyl-benflumetol in <i>Plasmodium vivax</i> (Kyavar, L., Rojanawatsirivet, C., Kollaritsch, H., Wernsdorfer, G., Sirichaisinthop, J., Wernsdorfer, W. H.)	62
Pharmacodynamic interaction between atovaquone and other antimalarial compounds against <i>Plasmodium falciparum</i> in vitro (Lütgendorf, C., Rojanawatsirivet, C., Wernsdorfer, G., Sirichaisinthop, J., Kollaritsch, H., Wernsdorfer, W. H.)	70
<i>Short Communication</i>	
Cercarial dermatitis in Austria: Questionnaires as useful tools to estimate risk factors? (Hörweg, C., Sattmann, H., Auer, H.)	77
