## Diagnosis, Therapy and Prophylaxis of Fungal Diseases

Official Publication of Deutschsprachige Mykologische Gesellschaft

VOLUME 49

SUPPLEMENT 1 2006

### CONTENTS

#### ORIGINAL ARTICLES

- Where will posaconazole find its place. 1
- H. Hof.** A new, broad-spectrum azole antifungal: posaconazole – mechanisms of action and resistance, spectrum of activity 2
- A. H. Groll, T. J. Walsh.** Antifungal efficacy and pharmacodynamics of posaconazole in experimental models of invasive fungal infections 7
- C. Müller, M. Arndt, C. Queckenberg, O. A. Cornely, M. Theisohn.** HPLC analysis of the antifungal agent posaconazole in patients with haematological diseases 17
- M. Karthaus, O. A. Cornely.** Second-line treatment in invasive mould infections 23
- V. Rickerts, J. Atta, S. Herrmann, V. Jacobi, E. Lambrecht, R. Bialek, G. Just-Nübling.** Successful treatment of disseminated mucormycosis with a combination of liposomal amphotericin B and posaconazole in a patient with acute myeloid leukaemia 27
- J. Sörensen, M. Becker, L. Porto, E. Lambrecht, T. Schuster, F. Beske, V. Rickerts, T. Klingebiel, T. Lehrnbecher.** Rhinocerebral zygomycosis in a young girl undergoing allogeneic stem cell transplantation for severe aplastic anaemia 31
- G. Notheis, L. Tarani, F. Costantino, A. Jansson, J. Rosenecker, D. Friederici, B. H. Belohradsky, D. Reinhardt, R. Seger, D. v. Schweinitz, U. Wintergerst.** Posaconazole for treatment of refractory invasive fungal disease 37
- J. J. Vehreschild, K. Krüger, O. Kurzai, C. Wickenhauser, K. Behringer, U. Töx, O. A. Cornely.** Salvage therapy of refractory chronic disseminated candidiasis in a patient with acute myeloid leukaemia and secondary prophylaxis during allogeneic stem cell transplantation 42
