## Diagnosis, Therapy and Prophylaxis of Fungal Diseases

Official Publication of Deutschsprachige Mykologische Gesellschaft

VOLUME 49

MAY 2006

NUMBER 3

### CONTENTS

#### ORIGINAL ARTICLES

- H. C. Sigle, M. Schäfer-Korting, H. C. Korting, B. Hube, M. Niewerth.** *In vitro* investigations on the mode of action of the hydroxypyridone antimycotics rilopirox and piroctone on *Candida albicans* 159
- V. Wittebolle, S. Lemriss, G. La Morella, J. Errante, P. Boiron, R. Barret, M. E. Sarciron.** Antifungal effects of aminosulphoxide and disulphide derivatives 169
- A. Keszthelyi, M. Ohkusu, K. Takeo, I. Pfeiffer, J. Litter, J. Kucsera.** Characterisation of the anticryptococcal effect of the FC-1 toxin produced by *Filobasidium capsuligenum* 176
- M. C. Demicheli, B. S. Reis, A. M. Goes, A. Silva Ribeiro de Andrade.** *Paracoccidioides brasiliensis*: attenuation of yeast cells by gamma irradiation 184
- A. Djeridane, Y. Djeridane, A. Ammar-Khodja.** Epidemiological and aetiological study on tinea pedis and onychomycosis in Algeria 190
- I. Levy, I. Shalit, S. Askenazi, G. Klinger, L. Sirota, N. Linder.** Duration and outcome of persistent candidaemia in newborn infants 197
- H. Meyer, S. Goettlicher, W. Mendling.** Stress as a cause of chronic recurrent vulvovaginal candidosis and the effectiveness of the conventional antimycotic therapy 202
- K. Grosse Kreymborg, H.-J. Seyfarth, C. Gessner, A. Schütz, S. Hammerschmidt, U. Eichfeld, G. Borte, H. Wirtz.** Diagnosis of aspergilloma in a pleural cavity (persistent pneumothorax) using classic imaging methods 210
- F. El Sayed, A. Ammoury, R. F. Haybe, R. Dhaybi.** Onychomycosis in Lebanon: a mycological survey of 772 patients 216
- S. H. Alves, D. A. Da Matta, A. C. Azevedo, E. S. Loreto, E. Boff, J. M. Santurio, J. Guarro.** *In vitro* activities of new antimycotics against fluconazole-susceptible and non-susceptible Brazilian *Candida* spp. isolates 220
- K. W. Garey, M. M. Neuhauser, D. T. Bearden, J. P. Cannon, R. E. Lewis, L. O. Gentry, D. P. Kontoyiannis.** Evaluation of antifungals in the surgical intensive care unit: a multi-institutional study 226
- M. A. A. Kassem, S. Esmat, E. R. Bendas, M. H. M. El-Komy.** Efficacy of topical griseofulvin in treatment of tinea corporis 232
- S. Watanabe, H. Takahashi, T. Nishikrawa, I. Takiuchi, N. Higashi, K. Nishimoto, S. Kagawa, H. Yamaguchi, H. Ogawa.** A comparative clinical study between 2 weeks of luliconazole 1% cream treatment and 4 weeks of bifonazole 1% cream treatment for tinea pedis 236
