

LETTERS TO THE EDITOR

M. Yalaz, M. Akisu, S. Hilmioglu, S. Calkavur, B. Cakmak, N. Kultursay. Successful caspofungin treatment of multidrug resistant *Candida parapsilosis* septicaemia in an extremely low birth weight neonate 242

Ş. Gürcan, H. M. Tuğrul, Y. Yörük, B. Özer, M. Tatman-Otkun, M. Otkun. First case report of empyema caused by *Beauveria bassiana* 246

C. Romano, P. Rubegni, A. Ghilardi, M. Fimiani. A case of bullous tinea pedis with dermatophytid reaction caused by *Trichophyton violaceum* 249

T. Kendirli, E. Ciftçi, E. İnce, S. Öncel, N. Dalgiç, H. Güriz, E. Unal, U. Dogru. Successful treatment of *Trichosporon mucoides* infection with lipid complex amphotericin B and 5-fluorocytosine 251

P. Poblete-Gutiérrez, F. Abuzahra, F. Becker, H. Krause, H. F. Merk, J. Frank. Onychomycosis in a diabetic patient due to *Trichophyton gallinae* 254

Corrigendum 258

Congress Calendar 259

CAPTION OF THE COVER ILLUSTRATION. Macroscopic aspect of *Trichophyton gallinae* colonies cultured for 3 to 4 weeks on Sabouraud glucose agar: diffusion of a strawberry-red colour into the agar and white-greyish colonies reaching a diameter of 2–3 cm with a wrinkled and woolly-to-cottony surface.

See: Poblete-Gutiérrez *et al*: Onychomycosis in a diabetic patient due to *Trichophyton gallinae*, pp. 254–257 in this issue.

Digitisation of *mycoses*

Blackwell Publishing has recently decided to digitise the entire run of *mycoses* back to volume 1, issue 1.

The back files, which have been defined as all of those issues published before 1997, will be sold to libraries as part of Blackwell Publishing's Legacy Sales Programme and hosted on the Blackwell Synergy website.

Copyright of all material will remain with the rights holder. Contributors: please contact the Editor if you do not wish an article from *mycoses* to be included in this digitisation project.
