Molecular diagnostics in hereditary cancer predisposition	69
Oral session: chronic lymphocytic leukaemia / non-Hodgkin lymphoma	70
PET diagnostics in oncology	74
Palliative medicine	74
Telomere biology in oncology and haematology	74
Poster session: Hodgkin's disease	75
Poster session: myeloma I	78
Poster session: transplantation (myeloma and CLL)	82
Poster session: chronic lymphocytic leukaemia / non-Hodgkin lymphoma I	85
Poster session: diagnostic problems in laboratory haematology	89
Poster session: breast cancer and gynaecological oncology	92
Poster session: urogenital cancer	97
Poster session: palliative medicine	100
Poster session: immunology I	102
Poster session: immunology II	105
Poster session: acute leukaemias I	108
Poster session: acute myeloid leukaemia I	111
Poster session: myeloproliferative syndromes I	115
Poster session: myelodysplastic syndrome I	118
Poster session: aggressive lymphoma: clinical I	121
Poster session: stem cell transplantation I	124
Poster session: stem cell transplantation II	128
Poster session: stem cell transplantation III	132
Poster session: lung cancer I	136
Poster session: gastrointestinal cancer I	139
Poster session: basic science I	143
Poster session: acute lymphoblastic leukaemia	147
Poster session: aggressive lymphoma: experimental	149
Poster session: myeloma II	153
Poster session: chronic lymphocytic leukaemia / non-Hodgkin lymphoma II	156
Poster session: sarcoma/rare tumours	160
Poster session: melanoma	164
