Editorial

197 **Hypertensive Erkrankungen in der Schwangerschaft: Eine interdisziplinäre Herausforderung**

Hypertensive Diseases during Pregnancy: An Interdisciplinary Challenge

Schmidt, M. (Essen); Fink, D. (Zürich); Lang, U. (Graz); Kimmig, R. (Essen)

Diagnosis and treatment of hypertensive disease in pregnancy constitute one of the key issues in the future reduction of maternal, fetal and neonatal morbidity and mortality.

Schwerpunkt: Präeklampsie

199 **Pathophysiologie der Präeklampsie**

Pathophysiology of Preeclampsia

Schmidt, M.; Kimmig, R. (Essen)

Preeclampsia is a multisystem disorder, the important pathophysiological principles of which are presented.

205 **Prophylaxe der Präeklampsie**

Prophylactic Treatment of Preeclampsia

Schauf, B.; Bohlmann, M.K.; Wallwiener, D.; Abele, H. (Tübingen)

The prophylactic possibilities in cases of typical preeclampsia are presented, considering particularly patients with hereditary thrombophilia.

209 **Aktuelle Therapieempfehlungen bei Präeklampsie**

Current Recommendations for the Treatment of Preeclampsia

Klockenbusch, W.; Schrepfer, F. (Münster)

The current treatment of preeclampsia is discussed, favoring mainly low-dose aspirin and magnesium sulfate.

215 **Aktuelles Management beim HELLP-Syndrom**

Current Management of the HELLP Syndrome

Bartz, C.; Rath, W. (Aachen)

The management of the HELLP syndrome during the different phases of pregnancy is described in detail.

222 **Arbeitsgemeinschaft Gestose-Frauen e.V.: Langjährige Erfahrungen in der Nachbetreuung nach Präeklampsie und HELLP-Syndrom aus der Sicht Betroffener**

The 'Arbeitsgemeinschaft Gestose-Frauen e.V.': A Self-Help Organization with Extensive Experience in the Aftercare of Women with Preeclampsia or HELLP Syndrome

Kuse, S.; Wasser, M. (Issum)

The 'Arbeitsgemeinschaft Gestose-Frauen e.V.' founded in 1984, has advised more than 24,000 women so far.

Originalarbeit

226 **Verwendung der Magnetresonanztomographie in der Diagnostik von Neoplasien der Vulva und Vagina**

Diagnosis of Vulval and Vaginal Neoplasms with Magnetic Resonance Imaging

Hauth, E.A.; Kimmig, R.; Forsting, M. (Essen)

Magnetic resonance imaging is useful in the pretherapeutic staging of neoplasms of the vulva and vagina as well as the diagnosis of posttherapeutic changes and tumor recurrence.

Der klinische Fall

236 **Ogilvie-Syndrom (akute idiopathische Kolondilatation) nach Sectio caesarea**

Ogilvie's Syndrome (Acute Idiopathic Colonic Pseudo-Obstruction) after Caesarean Section

Meier Ernst, R. (Olten); Müller, R.C.; Hess, T. (Winterthur)

This case report describes a patient after caesarean, who developed Ogilvie's syndrome; due to early intervention, a caecal rupture was prevented.

Conference Report

240 **Advancing Women's Cancer Care: Highlights from the Annual Meeting on Women's Cancer 2007.**

Report on the 38th Annual Meeting of the Society of Gynecologic Oncologists, San Diego, Calif., March 3-7, 2007
Petignat, P. (Geneva); Gotlieb, W. (Montreal)
