Authors, editors and publisher do not accept responsibility for any loss or damage arising from actions or decisions based on information contained in this publication: ultimate responsibility for the treatment of patients and interpretation of published material lies with the medical practitioner. Statements and opinions expressed in articles herein are those of the authors and not necessarily those of the editors or publisher. Great care is devoted to the compilation of the articles. Even so, however, errors in data processing cannot always be avoided. In view of this and because developments in medical science advance very quickly, it is recommended that the reader conducts his own independent inquiries and/or research as regards the stated diagnostic methods, measurements of medication dosis etc. The editors and publisher disclaim any responsibility or liability for the correctness of such material and do not guarantee, warrant or endorse any product or service advertised in this publication nor do they guarantee any claim made by the manufacturer of such product or service.

The use of general descriptive names, trade names, trademarks etc. in this publication even if not specifically identified, does not imply that these names are not protected by the relevant laws and regulations.
