

■ Reviews

Burda, K., Czubak, A., Nowakowska, E., Kus, K., 527
Metelska, J., Nowakowska, A.

Interactions of nicotine and drugs used in the treatment of mental illnesses with respect to cognitive functions

■ Antiemetics · Gastrointestinal Drugs · Urologic Drugs

Enzensperger, C., Lehmann, J., von Schroetter, K., 544
Riyazi, A., Verspohl, E. J.

Arylalkylamine-, β -carboline-, quinolizine- and azecine-derived compounds and their *in vitro* interaction with the ionotropic 5-HT₃ receptor: search for new lead structures

■ Antidiabetics

Homšek, I., Parojčić, J., Dačević, M., 553
Petrović, L., Jovanović, D.

Justification of metformin hydrochloride bio-waiver criteria based on bioequivalence study

■ Lipid Regulators

Vlase, L., Popa, A., Muntean, D., Leucuta, S. E. 560

Pharmacokinetics and comparative bioavailability of two fenofibrate capsule formulations in healthy volunteers

■ Analgesics · Anti-inflammatories · Antiphlogistics · Antirheumatic Drugs

Asaka, N., Kakuo, H., Ohmori, K., Sasaki, E., 564
Togawa, M., Yamada, S., Oka, T., Kiniwa, M.

Effects of the new benzimidazole derivative TAS-203, an orally active phosphodiesterase 4 inhibitor, on airway inflammation in rats and emetic responses in ferrets

Chen, X., Sun, X., Ren, K., Zhang, X., Zhang, Z., 571
Gong, T.

Enhanced aqueous solubility and bioavailability of capsaicin by the preparation of an inclusion complex

■ Antibiotics · Antimycotics · Antiparasitics · Antiviral Drugs · Chemotherapeutics · Cytostatics

N'Da, D. D., Breytenbach, J. C., 575
Breytenbach, J. W.

Synthesis and *in vitro* human skin penetration of oligo- and polymeric ethylene glycol carbonates of zidovudine and stavudine
