

CONTENTS

REVIEW ARTICLE

- S. Abbes, I. Amouri, H. Sellami, A. Sellami, F. Makni, A. Ayadi.** A review of molecular techniques to type *Candida glabrata* isolates 463

ORIGINAL ARTICLES

- K. L. Bacelo, K. R. C. da Costa, J. C. Ferreira, R. C. Candido.** Biotype stability of *Candida albicans* isolates after culture storage determined by randomly amplified polymorphic DNA and phenotypical methods 468
- S. Alp, B. Sancak, G. Hascelik, S. Arikan.** Influence of different susceptibility testing methods and media on determination of the relevant fluconazole minimum inhibitory concentrations for heavy trailing *Candida* isolates with low-high phenotype 475
- S. Voyron, F. Rocco, M. Ceruti, P. Forni, A. F. Pla, M. G. Sarpietro, G. C. Varese, V. F. Marchisio.** Antifungal activity of bis-azasqualenes, inhibitors of oxidosqualene cyclase 481
- C. S. P. Tsang, I. Hong.** HIV protease inhibitors differentially inhibit adhesion of *Candida albicans* to acrylic surfaces 488
- K. Kang, K.-S. Wong, C. Jayampath Seneviratne, L. P. Samaranyake, W.-P. Fong, P. W.-K. Tsang.** *In vitro* synergistic effects of metergoline and antifungal agents against *Candida krusei* 495
- A. C. M. de Souza, L. Kato, C. C. da Silva, A. F. Cidade, C. M. A. de Oliveira, M. d. R. R. Silva.** Antimicrobial activity of *Hymenaea martiana* towards dermatophytes and *Cryptococcus neoformans* 500
- A. Nicola, A. Laura, A. Natalia, P. Monica.** A 20-year survey of tinea faciei 504
- S. T. Tay, M. Y. Rohani, T. S. Soo Hoo, H. Hamimah.** Epidemiology of cryptococcosis in Malaysia 509
- T. Y. Tan, A. L. Tan, N. W. S. Tee, L. S. Y. Ng, C. W. J. Chee.** The increased role of non-*albicans* species in candidaemia: results from a 3-year surveillance study 515
- S. M. Yim, J. H. Ko, Y. W. Lee, H. W. Kim, J. Y. Lee, N. I. Kim, Y. C. Kye, K. C. Park, J. H. Choi, K. H. Lee, M. N. Kim, K. J. Kim, Y. S. Ro, K. J. Ahn.** Study to compare the efficacy and safety of fluconazole cream with flutrimazole cream in the treatment of superficial mycosis: a multicentre, randomised, double-blind, phase III trial 522

LETTERS TO THE EDITOR

- D. Budihardja, V. Freund, P. Mayser.** Widespread erosive tinea corporis by *Arthroderma benhamiae* in a renal transplant recipient: case report 530

- D. Mølenberg, M. Deleuran, M. Sommerlund.** Connubial tinea gladiatorum due to *Trichophyton mentagrophytes* 533
