

■ Review

Srinivas, N. R. E 731

Altered disposition of drugs in acute renal failure rat models: drug development strategies and perspectives

■ Antihypertensives

Sasongko, L., Harahap, Y., Prasaja, B., E 749

Lusthom, W., Setiawan, E. C., Meliala, R. S., Lipin

Comparative bioavailability of two irbesartan/hydrochlorothiazide tablet formulations in Indonesian healthy subjects

■ Analgesics · Anti-inflammatories · Antiphlogistics · Antirheumatic Drugs

Matsumoto, T., Inoue, T., Takahashi, A., E 754

Higuchi, A., Taniguchi-Morita, K., Miyasaka, M., Tamura, J.-I.

Anti-arthritic activity of synthesized chondroitin sulfate E hexasaccharide

■ Immunomodulators

Maeda, M., Ishii, H., Tanaka, S., Onda, K., E 760

Hirano, T.

Suppressive efficacies of antimicrobial agents against human peripheral-blood mononuclear cells stimulated with T cell mitogen and bacterial superantigen

■ Antibiotics · Antimycotics · Antiparasitics · Antiviral Drugs · Chemotherapeutics · Cytostatics

Chládková, J., Hak, J., Martínková, J., Chládek, J. E 769

High-dose methotrexate in children with acute lymphoblastic leukemia: 7-hydroxymethotrexate systemic exposure and urinary concentrations at the steady state correlate well with those of methotrexate

■ Special Themes

Wink, K. E 776

Instructions and methods for clinical testing of drugs for the treatment of atrial fibrillation
