

mycoses

Diagnosis, Therapy and Prophylaxis of Fungal Diseases

Official Publication of Deutschsprachige Mykologische Gesellschaft

VOLUME 53

JANUARY 2010

NUMBER 1

CONTENTS

REVIEW ARTICLE

- C. Lass-Flörl, S. Perkhofer, A. Mayr.** *In vitro* susceptibility testing in fungi: a global perspective on a variety of methods 1

ORIGINAL ARTICLES

- P. Pozzatti, É. S. Loreto, P. G. M. Lopes, M. L. Athayde, J. M. Santurio, S. H. Alves.** Comparison of the susceptibilities of clinical isolates of *Candida albicans* and *Candida dubliniensis* to essential oils 12

- M. D. Tanriover, S. Ascioğlu, B. Altun, O. Uzun.** Galactomannan on the stage: prospective evaluation of the applicability in routine practice and surveillance 16

- M. Y. Chan, S. T. Tay.** Enzymatic characterisation of clinical isolates of *Cryptococcus neoformans*, *Cryptococcus gattii* and other environmental *Cryptococcus* spp. 26

- I. Singh, A. K. Dixit, R. K. S. Kushwaha.** Antagonism of *Microsporium* species by soil fungi 32

- S. Ahmad, Z. U. Khan, A. M. Theyyathel.** Development of a nested PCR assay for the detection of *Fusarium solani* DNA and its evaluation in the diagnosis of invasive fusariosis using an experimental mouse model 40

- E. R. Duarte, J. S. Hamdan.** RAPD differentiation of *Malassezia* spp. from cattle, dogs and humans 48

- A. Fittler, B. Kocsis, I. Gerlinger, L. Botz.** Optimization of bioassay method for the quantitative microbiological determination of amphotericin B 57

- L. K. H. Souza, A. H. Souza Junior, C. R. Costa, J. Faganello, M. H. Vainstein, A. L. B. Chagas, A. C. M. Souza, M. R. R. Silva.** Molecular typing and antifungal susceptibility of clinical and environmental *Cryptococcus neoformans* species complex isolates in Goiania, Brazil 62

- L. K. H. Souza, O. F. L. Fernandes, X. S. Passos, C. R. Costa, J. A. Lemos, M. R. R. Silva.** Epidemiological and mycological data of onychomycosis in Goiania, Brazil 68

- J. Ben Abdeljelil, N. Ben Saida, F. Saghrouni, A. Fathallah, J. Boukadida, H. Sbouï, M. Ben Said.** Systemic neonatal candidosis: the karyotyping of *Candida albicans* strains isolated from neonates and health-workers 72

LETTERS TO THE EDITOR

- M. C. Gutierrez-Galhardo, A. C. F. do Valle, B. L. B. Fraga, A. O. Schubach, B. R. de Siqueira Hoagland, P. C. F. Monteiro, M. B. de Lima Barros.** Disseminated sporotrichosis as a manifestation of immune reconstitution inflammatory syndrome 78

- R. Orofino-Costa, M. N. Bóia, G. A. P. Magalhães, P. S. Damasco, A. R. Bernardes-Engemann, F. Benvenuto, I. C. Silva, L. M. Lopes-Bezerra.** Arthritis as a hypersensitivity reaction in a case of sporotrichosis transmitted by a sick cat: clinical and serological follow up of 13 months 81
- B. Posteraro, E. Scarano, M. La Sorda, R. Torelli, E. De Corso, A. Mulé, G. Paludetti, G. Fadda, M. Sanguinetti.** Eosinophilic fungal rhinosinusitis due to the unusual pathogen *Curvularia inaequalis* 84
- C. G. Valentini, A. Candoni, L. Fianchi, B. Posteraro, E. Simeone, F. Costa, M. Sanguinetti, M. T. Voso, M. Caira, R. Fanin, L. Pagano.** Efficacy of combined surgery and antifungal therapies for the management of invasive zygomycoses in patients with haematological malignancies 89
- BOOK REVIEW**
- ABC of Medical Law 93
- Methods in Molecular Biology 499: *Candida albicans*. Methods and Protocols 94

CAPTION OF THE COVER ILLUSTRATION. Haematoxylin and eosin staining of the mucus showing eosinophils with basophilic material, likely representing degenerated nuclei of the eosinophils. See B. Posteraro *et al.*, Eosinophilic fungal rhinosinusitis due to the unusual pathogen *Curvularia inaequalis*, pp. 84–88 in this issue.
