

mycoses

Diagnosis, Therapy and Prophylaxis of Fungal Diseases

Official Publication of Deutschsprachige Mykologische Gesellschaft

VOLUME 53

MARCH 2010

NUMBER 2

CONTENTS

REVIEW ARTICLE

- P. O. Gubbins, S. Heldenbrand.** Clinically relevant drug interactions of current antifungal agents 95

ORIGINAL ARTICLES

- E. Alvarado-Ramírez, J. M. Torres-Rodríguez, F. Murciano, M. Sellart.** Müller–Hinton methylene blue media as an alternative to RPMI 1640 for determining the susceptibility of *Cryptococcus neoformans* and *Cryptococcus gattii* to posaconazole with Etest 114
- A. A. Tayel, W. F. El-Tras.** Anticandidal activity of pomegranate peel extract aerosol as an applicable sanitizing method 117
- C. S. Prasad, R. Shukla, A. Kumar, N. K. Dubey.** *In vitro* and *in vivo* antifungal activity of essential oils of *Cymbopogon martini* and *Chenopodium ambrosioides* and their synergism against dermatophytes 123
- J. Correia, C. de Moraes Borba, B. Reis, A. Martins, S. Unkles, J. R. Kinghorn, N. Lucena-Silva.** The ceja-1 sequence as a potential new molecular marker for *Paracoccidioides brasiliensis* infection 130
- R. Agarwal, A. Nath, A. N. Aggarwal, D. Gupta, A. Chakrabarti.** *Aspergillus* hypersensitivity and allergic bronchopulmonary aspergillosis in patients with acute severe asthma in a respiratory intensive care unit in North India 138
- G. Moreno-Coutiño, S. Toussaint-Caire, R. Arenas.** Clinical, mycological and histological aspects of white onychomycosis 144
- A. B. Macura, P. Krzyściak, M. Skóra, A. Gniadek.** Dermatophyte species in superficial mycoses in the Kraków district, Poland in the years 1972–2007 148
- M. Chadeganipour, S. Nilipour, G. Ahmadi.** Study of onychomycosis in Isfahan, Iran 153
- J. R. Coloc, M. Diab, J. Moennich, D. Diab, M. Pawaskar, R. Balkrishnan, M. A. Bechtel.** Tinea capitis among children in the Columbus area, Ohio, USA 158

LETTERS TO THE EDITOR

- D. T. Cooke, F. D. Pagani, D. R. Kaul, K. R. Cooke, C. L. Lau, J. Riddell IV.** Successful treatment of pulmonary zygomycosis in two transplant recipients with liposomal amphotericin B and partial surgical resection followed by posaconazole 163

- H. Terai, M. Shimahara.** Chronic oral ulcer associated with *Candida* 168

- S. R. Nawange, K. Singh, J. Naidu, S. M. Singh.** Naturally acquired systemic dual infection caused by *Candida famata* (*Debaryomyces hansenii*) and *Candida catenulata* in albino rats bred for sale in the market at Jabalpur (Madhya Pradesh), India 173

- J. Batista Jr, Z. P. de Camargo, G. F. Fernandes, A. P. Vicentini, C. J. F. Fontes, R. C. Hahn.** Is the geographical origin of a *Paracoccidioides brasiliensis* isolate important for antigen production for regional diagnosis of paracoccidioidomycosis? 176
- S. Cesaro, S. Marinello, B. Alessia, R. Alaggio, L. Rossi, T. Toffolutti, M. C. Putti, P. Gamba.** Successful treatment of disseminated fusariosis in a child with acute myelogenous leukaemia with medical and surgical approach 181
- L. Piñeiro, J. Larruskain, P. Idigoras, E. Pérez-Trallero.** *Trichophyton rubrum* syndrome: the tip of the iceberg and a preventable outcome 186

CAPTION OF THE COVER ILLUSTRATION. H&E stain, bronchial lumen contains amorphous eosinophilic material, mucus and inflammatory cells (×320). Typical hyaline hyphae with septae were detected. See S. Cesaro *et al.*, Successful treatment of disseminated fusariosis in a child with acute myelogenous leukaemia with medical and surgical approach, pp. 181–185 in this issue.
