

mycoses

Diagnosis, Therapy and Prophylaxis of Fungal Diseases

Official Publication of Deutschsprachige Mykologische Gesellschaft

VOLUME 53

JULY 2010

NUMBER 4

CONTENTS

REVIEW ARTICLE

- J. A. M. S. Jayatilake, L. P. Samaranayake.** Experimental superficial candidiasis on tissue models 285

ORIGINAL ARTICLES

- B. Bauer, M. Schwienbacher, M. Broniszewska, L. Israel, J. Heesemann, F. Ebel.** Characterisation of the CipC-like protein AFUA_5G09330 of the opportunistic human pathogenic mould *Aspergillus fumigatus* 296

- M. Kolaczkowski, A. Kolaczowska, K. Środa, C. Ramalhete, K. Michalak, S. Mulhovo, M. J. U. Ferreira.** Substrates and modulators of the multidrug transporter Cdr1p of *Candida albicans* in antifungal extracts of medicinal plants 305

- M. A. Ghannoum, A. Welshenbaugh, Y. Imamura, N. Isham, P. Mallefet, H. Yamaguchi.** Comparison of the *in vitro* activity of terbinafine and itraconazole against dermatophytes 311

- A. Kolaczowska, M. Kolaczkowski, A. Sokolowska, H. Miecznikowska, A. Kubiak, K. Rolka, A. Polanowski.** The antifungal properties of chicken egg cystatin against *Candida* yeast isolates showing different levels of azole resistance 314

- C. Antachopoulos, J. P. Demchok, E. Roilides, T. J. Walsh.** Fungal biomass is a key factor affecting polymorphonuclear leucocyte-induced hyphal damage of filamentous fungi 321

- M. A. Jarboui, A. Sellami, H. Sellami, F. Cheikhrouhou, F. Makni, N. Ben Arab, M. Ben Jemaa, A. Ayadi.** Molecular diagnosis of *Pneumocystis jiroveci* pneumonia in immunocompromised patients 329

- F. Abuzahra, F. Spöler, M. Först, R. Brans, S. Erdmann, H. F. Merk, D. H. Obrigkeit.** Pilot study: optical coherence tomography as a non-invasive diagnostic perspective for real time visualisation of onychomycosis 334

- A. Shemer, H. Trau, B. Davidovici, M. H. Grunwald, B. Amichai.** Onychomycosis in psoriatic patients – rationalization of systemic treatment 340

- A. Prohic.** Distribution of *Malassezia* species in seborrhoeic dermatitis: correlation with patients' cellular immune status 344

- A. Rasi, R. Naderi, A. H. Behzadi, M. Falahati, S. Farehyar, Y. Honarbakhsh, A. P. Akasheh.** *Malassezia* yeast species isolated from Iranian patients with pityriasis versicolor in a prospective study 350

M. Y. Lin, S. Chihara, K. Y. Smith, H. A. Kessler, B. E. Sha, L. A. Proia. Classic pyomyositis of the extremities as an unusual manifestation of *Blastomyces dermatitidis*: a report of two cases 356

S. Veraldi, A. Chiaratti, H. Harak. Onychomycosis caused by *Aspergillus versicolor* 363

C. Tan, W.-Y. Zhu, Z.-S. Min. Blaschkoid pityriasis versicolor 366

LETTERS TO THE EDITOR

J. Brasch, R. Hügel, F. Lipowsky, Y. Gräser. Tinea corporis caused by an unusual strain of *Microsporum audouinii* that perforates hair *in vitro* 360

X. Yang, Y. Li, X. Zhou, Y. Wang, S. Geng, H. Liu, Q. Yang, X. Lu, M. Hiruma, T. Sugita, S. Ikeda, H. Ogawa. Rhinofacial conidiobolomycosis caused by *Conidiobolus coronatus* in a Chinese rice farmer 369

CAPTION OF THE COVER ILLUSTRATION. Skin biopsy (arm) with fungal elements within a hair follicle and in the stratum corneum (PAS stain). See Brasch *et al.*, Tinea corporis caused by an unusual strain of *Microsporum audouinii* that perforates hair *in vitro*, pp. 360–362 in this issue.
