

Main Topic: Experimental and Applied Research in Dermatology

Topic Editors: Uwe Paasch and Merete Haedersdal

From the Editors

U. Paasch and M. Haedersdal 1

Prospective, uncontrolled examination of ablative fractional photothermolysis on Asian and Caucasian skin

K. Samuthrsindh, D. Helbig, U. Paasch, W. Thanasarnaksorn and N. Sutthipisal 3

Treatment of keloids and hypertrophic scars with the triple-mode Er:YAG laser: A pilot study

J.A. Wagner, U. Paasch, M.O. Bodendorf, J.C. Simon and S. Grunewald 10

Electro-optical synergy (ELOS) technology for combined acne scars treatment – A case report

F. Cherif and I. Zarea 16

Effect of pulsed dye laser on intercellular adhesion molecule-1 (ICAM-1) expression after treatment of psoriasis

M. Soliman, H. Zaher, N. El Danasouri, A. Attia and W. Tawfik 20

Anti-inflammatory effect of low level laser treatment on chronic periodontitis

A. Pejcic and D. Mirkovic 27

***In vitro* skin wound soldering using SiO₂/Au nanoshells and a diode laser**

M. Khosroshahi and M.S. Nourbakhsh 35

LETTER TO THE EDITOR: Powerful medical light sources such as lasers or IPL in the hands of laypersons?

W. Bäuml 43

OBITUARY: In memory of Prof. Dr. Gerhard Müller

H.-P. Berlien 44

ANNOUNCEMENT: "25 Years ILM" Symposium and Celebration combined with 18th Annual Meeting of DGLM e.V., May 20 – 22, 2011
