

MILCHWISSENSCHAFT • MILK SCIENCE INTERNATIONAL

ZEITSCHRIFT FÜR ERNÄHRUNGSFORSCHUNG UND LEBENSMITTELWISSENSCHAFTEN
JOURNAL OF NUTRITION RESEARCH AND FOOD SCIENCE
ORGAN DER GESELLSCHAFT FÜR MILCHWISSENSCHAFT / ASSOCIATION OF MILK SCIENCE

WISSENSCHAFTLICHE REDAKTION / SCIENTIFIC EDITOR: PROF. DR. W. HEESCHEN

Vol. 66 • Nr / No 4 • Kempten • MILCAD 66 (4) 349 – 464 (2011)

ORIGINALARBEITEN / ORIGINAL PAPERS

CASTRO, N., SPENGLER, M., LOLLIVIER, V., WELLNITZ ¹ , O., MEYER, H.H.D., BRUCKMAIER, R.M.: Diurnal pattern of melatonin in blood and milk of dairy cows	352-353
KAMATH, S., DEETH, H.C.: Effect of added oil on the foaming properties of skim milk	354-357
JO, M.N., LEE, N.-K., CHOI, G.-H., YOON, Y.C., PAIK, H.-D.: Angiotensin-converting enzyme inhibitory effects of whey protein hydrolyzate prepared using Protamex	358-360
POST, A.E., HINRICHS, J.: Large-scale isolation of food-grade β -casein	361-364
ÇARDAK, A.D., GÜVEN, G., DEMİR, M.: Mineral and trace element contents of dairy products consumed in Aydin Province, Turkey	365-367
HOU, J., LIU, Y., WANG, Y., XIAO, Z., LIU, F., YU, W., WANG, F., XU, J.: Promoting the production of conjugated linoleic acid by optimizing the fermentation parameters of <i>Lactobacillus</i> sp.	368-371
SANDEEP, I.V.R., SHANTI, M., BEHERA, P.S., KAPILA, S., KANSAL, V.K., KAPILA, R., DANG, A.K., ARORA, S.: Comparative evaluation of caseinophosphopeptides of cow and buffalo milk for immunomodulatory potential in mice	371-374
KUMAR, Sa., KANAWAJIA, S.K., KUMAR, Su.: Effect of different degree of heat treatment on textural characteristics of buffalo milk Feta type cheese during ripening	374-377
GARMENÉ, G., SALOMSKIENÉ, J., JASUTIENÉ, I., MACIONIENÉ, I., MILIAUSKIENÉ, I.: Changing benzoic acid content in cheese during its manufacture	378-381
WACHOWSKA, M.: Microbiological changes in Edam-type cheese, brined in a mixture of sodium and potassium chloride during the ripening process	381-384
MUKHERJEE, J., DANG, A.K.: Immune activity of milk leukocytes during early lactation period in high and low yielding crossbred cows	384-388
OMAR, S.S.: Inhibitory effect of nisin and some of plant extracts against growth of <i>Cronobacter sakazakii</i> in reconstituted infant milk formula	389-393
DE RUYCK, H., VAN WAES, C., DE RIDDER ¹ , H., VAN ROYEN, G., MERCHERS, M., DE BLOCK, J.: Screening of dairy powders by near infrared spectroscopy (NIRS)	393-395
GRZEŚKIEWICZ, A., JANKOWSKA, A., Krystyna WIŚNIEWSKA, K., REPS, A.: The effect of pressurization on selected properties of <i>Lactobacillus acidophilus</i> bacteria	396-398
ORAL, R.A., DOĞAN, M., SARIOĞLU, K.: Monitoring of the hydroxymethylfurfural amount as an indicator of Maillard products in sweet whey and skim milk powder stored under different conditions	398-401
OCIECZEK A., RUSZKOWSKA, M.: Kinetics and statics of water vapour of pudding powders as their storage stability factors	401-405
ABD EL-BAKY, H., LINKE, D., NIMTZ, M., METRY, W., EL-DEMERDASH, O., BERGER, R.G.: The extracellular aspartic peptidase of basidiomycete <i>Wolfiporia cocos</i> is a highly efficient milk clotting enzyme	406-409
BIANCHI, L., NUNZI, C., PAUSELLI, M., MOSCATI, L., CESTOLA ¹ , E., DURANTI, E., CASOLI, C.: Evaluating the antioxidant capacity in different fractions of sheep milk	410-413
WILRICH, P.TH., WEISS, H.: Three-class sampling plans for the evaluation of bacterial contamination	413-416
SUN, J., YIN, G., LIU, N.: Effects of osteopontin from bovine milk effects on osteoblasts and osteoclasts co-culture system <i>in vitro</i>	416-419
KÜÇÜKÇETİN, A., DEMİR, M., COMAK, E.M., ASCI, A., ZENGİN, A.S.: Effect of stabilizer addition on the physico-chemical and sensory properties of non-fat set yoghurt	420-423
AMAYA-LLANO, S.L., CASTAÑO TOSTADO, E., MARTÍNEZ-BUSTOS, F., OZIMEK, L.: Surface hydrophobicity of co-extruded and milled corn starch with whey protein concentrate as a function of pH	424-426
WANG, D., WANG, Y., WANG, J., ZHANG, X., XIAO, F.: Rapid detection of viable <i>Listeria monocytogenes</i> in raw milk using loop-mediated isothermal amplification with the aid of ethidium monoazide	426-429
SINGH, B., RAM, C., SINGH, R.: Angiotensin-1 converting enzyme (ACE) inhibitory activity of peptides isolated from bovine milk fermented with <i>Lactobacillus helveticus</i> NCDC- 288	429-431
Referate, Kurzberichte, Schnellinformationen / Abstracts, Short Information	432-462
