Review Article

Entomophagy and human food security

R.T. Gahukar

129

Research Papers

Proximate amino acid, fatty acid and mineral composition of two Sudanese edible pentatomid insects

A.A. Mariod, S.I. Abdel-Wahab and N.M. Ain

145

First report of entomopathogenic nematodes from Tanzania and their virulence against larvae and adults of the banana weevil *Cosmopolites sordidus* (Coleoptera: Curculionidae)

S. Mwaitulo, S. Haukeland, M.-G. Sathre, A. Laudisoit and A.P. Maerere

154

Monotypic prey-mediated development, survival and life table attributes of a ladybird beetle *Anegleis cardoni* (Coleoptera: Coccinellidae) on different aphid species

Omkar, G. Kumar and J. Sahu

162

Insecticidal activity of compounds from the leaves of *Vitex negundo* (Verbenaceae) against *Tribolium castaneum* (Coleoptera: Tenebrionidae)

N.Y. Chowdhury, W. Islam and M. Khalequzzaman

174

Diversity and marker association in tropical silkworm breeds of *Bombyx mori* (Lepidoptera: Bombycidae)

P.P. Srivastava, K. Vijayan, P.K. Kar and B. Saratchandra

182

Effect of the juvenile hormone agonist pyriproxyfen on larval and pupal development of the citrus swallowtail *Papilio demoleus* (Lepidoptera: Papilionidae)

S. Singh and K. Kumar

192

Short Communication

Discovery of, and studies on, *Pareuchaetes pseudoinsulata* (Lepidoptera: Arctiidae) in southern Nigeria

O.U. Uyi, I.N. Egbon and I.B. Igbimosa

199
