

CONTENTS

Special topics/Sujets spéciaux

Minireview/Minisynthèse

Prospect for functional eradication of the bacterial ring rot disease of potato

S. H. De Boer and A. Boucher

297

Bacteria and phytoplasmas/Bactéries et phytoplasmes

Isolation and characterization of eight bacteriophages infecting *Erwinia amylovora* and their potential as biological control agents in British Columbia, Canada

J. Boulé, P. L. Sholberg, S. M. Lehman, D. T. O’Gorman and A. M. Svircev

308

A TaqMan real-time PCR assay targeting the cytochrome *o* ubiquinol oxidase subunit II gene for detection of several pathovars of *Pseudomonas syringae*

R. Xu and J. T. Tambong

318

Note

Detection of 16S rDNA of ‘*Candidatus Phytoplasma mali*’ in plum decline in Tunisia

M. B. Khalifa and H. Fakhfakh

332

Biochemistry and cell biology/Biochimie et biologie cellulaire

The development of a model to predict the potential efficacy of *Trichoderma harzianum* isolates on perithecial production of *Gibberella zeae* based on secondary metabolite production

S. Inch, D. J. Walker, J. Gilbert, F. Daayf, W. G. D. Fernando and M. Piercey-Normore

337

Identification and activity of a phytotoxin produced by *Calonectria ilicicola*, the causal agent of soybean red crown rot

S. Ochi, M. Yoshida, A. Nakagawa and M. Natsume

347

Epidemiology/Épidémiologie

Comparison of disease severity and incidence at different growth stages of naturally infected canola plants under field conditions by pycnidiospores of *Phoma lingam* as a main source of inoculum

K. Ghanbarnia, W. G. Dilantha Fernando and G. Crow

355

Genetics and resistance/Génétique et résistance

Evaluation of a detached leaf assay to measure fusarium head blight resistance components in barley

K. Kumar, K. Xi, T. K. Turkington, A. Tekauz, J. H. Helm and J. P. Tewari

364

Verticillium dahliae’s VdNEP acts both as a plant defence elicitor and a pathogenicity factor in the interaction with *Helianthus annuus*

Z. Yao, K. Y. Rashid, L. R. Adam and F. Daayf

375

Simple sequence repeats and diversity of globally distributed populations of *Pyrenophora tritici-repentis*

R. Aboukhaddour, S. Cloutier, L. Lamari and S. E. Strelkov

389

Soilborne pathogens/Agents pathogènes telluriques

Pathogenicity of *Fusarium* spp. to chickpea seed and seedlings (*Cicer arietinum* L.)

R. Leisso, Z. Miller, B. Jacobsen and M. Burrows

..

400

Nightshade hosts for Canadian isolates of *Globodera rostochiensis* pathotype Ro1

M. Rott, T. Lawrence and M. Belton

410

Genetics and resistance/Génétique et résistance

Seedling resistance to *Rhizoctonia* and *Pythium* spp. in wheat chromosome group 4 addition lines from

Thinopyrum spp.

P. A. Okubara and S. S. Jones

416
