

# NEW ZEALAND JOURNAL OF AGRICULTURAL RESEARCH

Volume 54    Number 4    December 2011

Foreword <b>S Wilkins</b>	215
Editorial <b>T Clough</b>	217
<b>Articles</b>	
Simple models of carbon and nitrogen cycling in New Zealand hill country pastures: exploring impacts of intensification on soil C and N pools <b>CJ Hoogendoorn, S Bowatte and RW Tillman</b>	221
Effect of artificial shading on growth and competitiveness of <i>Alternanthera philoxeroides</i> (alligator weed) <b>IE Bassett, Q Paynter and JR Beggs</b>	251
Impacts of agricultural land management on soil quality after 24 years: a case study in Zhangjiagang County, China <b>YB Qi, B Huang and JL Darilek</b>	261
Effect of grass species and fungal endophyte on soil nitrification potential <b>S Bowatte, B Barrett, C Luscombe, DE Hume, D Luo, P Theobald and PCD Newton</b>	275
Influence of soil pH on NO <sub>x</sub> and N <sub>2</sub> O emissions from bovine urine applied to soil columns <b>S Khan, TJ Clough, KM Goh and RR Sherlock</b>	285
Effects of loline-producing endophyte-infected meadow fescue ecotypes on New Zealand grass grub ( <i>Costelytra zealandica</i> ) <b>B Patchett, R Gooneratne, B Chapman and L Fletcher</b>	303
Relationships between live weight and herd-test traits in a Saanen goat herd in New Zealand <b>CA Morris, M Wheeler and BJ Foote</b>	315
The effect of breeding hoggets on lifetime performance <b>PR Kenyon, DS van der Linden, DM West and ST Morris</b>	321
Modelling the seasonal and geographical pattern of pasture production in New Zealand <b>FY Li, VO Snow and DP Holzworth</b>	331
<b>Book Review</b>	353
