

Seed Science Research

Review

- Xi, D.-M. & Zheng, C.-C.** Transcriptional regulation of seed storage protein genes in *Arabidopsis* and cereals..... 247

Research Papers

- Wang, W.Q., Song, S.Q., Li, S.H., Gan, Y.Y., Wu, J.H. & Cheng, H.Y.** Seed dormancy and germination in *Vitis amurensis* and its variation 255
- Copete, E., Herranz, J.M., Copete, M.A., Baskin, J.M. & Baskin, C.C.** Non-deep complex morphophysiological dormancy in seeds of the Iberian Peninsula endemic geophyte *Merendera montana* (Colchicaceae) 267
- Aguado, M., Martínez-Sánchez, J.J., Reig-Armiñana, J., García-Breijo, F.J., Franco, J.A. & Vicente, M.J.** Morphology, anatomy and germination response of heteromorphic achenes of *Anthemis chrysantha* J. Gay (Asteraceae), a critically endangered species 283
- Wang, N., Jiao, J.-Y., Jia, Y.-F. & Wang, D.-L.** Seed persistence in the soil on eroded slopes in the hilly-gullied Loess Plateau region, China 295
- O’Farrill, G., Chapman, C.A. & Gonzalez, A.** Origin and deposition sites influence seed germination and seedling survival of *Manilkara zapota*: implications for long-distance, animal-mediated seed dispersal 305
- Lamb, E.G. & Booker, H.M.** Quantification of low-level genetically modified (GM) seed presence in large seed lots: a case study of GM seed in Canadian flax breeder seed lots 315
