Regular Papers

Manipulating fat content of familiar foods at test-meals does not affect intake and liking of these foods among children A. Olsen, C. van Belle, K. Meyermann and K.L. Keller	573–577
Beyond alcohol and drug addiction. Does the negative trait of low distress tolerance have an association with overeating? A.T. Kozak and A. Fought	578–581
Food cravings mediate the relationship between rigid, but not flexible control of eating behavior and dieting success A. Meule, J. Westenhöfer and A. Kübler	582–584
The importance of habits in eating behaviour. An overview and recommendations for future research J.v. Riet, S.J. Sijtsema, H. Dagevos and G.-J. De Bruijn	585–596
Expectation of having consumed caffeine can improve performance and mood L. Dawkins, F.-Z. Shahzad, S.S. Ahmed and C.J. Edmonds	597–600
Can alginate-based preloads increase weight loss beyond calorie restriction? A pilot study in obese individuals M. Georg Jensen, M. Kristensen and A. Astrup	601–604
Calorie supply does not alleviate running-based taste aversion learning in rats S. Nakajima	605–614
Alliesthesia is greater for odors of fatty foods than of non-fat foods J. Plailly, N. Luangraj, S. Nicklaus, S. Issanchou, J.-P. Royet and C. Sulmont-Rossé	615–622
Social norms and diet in adolescents P. Lally, N. Bartle and J. Wardle	623–627
Fat emulsion composition alters intake and the effects of baclofen Y. Wang, D.C. Wilt, F.H.E. Wojnicki, R.K. Babbs, J.N. Coupland and R.L.C. Corwin	628–634
Texture, not flavor, determines expected satiation of dairy products P.S. Hogenkamp, A. Stafleu, M. Mars, J.M. Brunstrom and C. de Graaf	635–641
Neatness counts. How plating affects liking for the taste of food D.A. Zellner, E. Siemers, V. Teran, R. Conroy, M. Lankford, A. Agrafiotis, L. Ambrose and P. Locher	642–648
Factors associated with eating out of home in Vietnamese adolescents C. Lachat, L.N.B. Khanh, T.T.T. Huynh, R. Verstraeten, E. Nago, D. Roberfroid and P. Kolsteren	649–655

(Contents continued overleaf)

Stages of change for fruit and vegetable intake among patients with atherosclerotic disease S. Bernardes and P.R.A. Caramori	656–660
Watching food-related television increases caloric intake in restrained eaters M. Shimizu and B. Wansink	661–664
Parental feeding behaviours and motivations. A qualitative study in mothers of UK pre-schoolers S. Carnell, L. Cooke, R. Cheng, A. Robbins and J. Wardle	665–673
Eating green: Consumers' willingness to adopt ecological food consumption behaviors C. Tobler, V.H.M. Visschers and M. Siegrist	674–682
Food avoidance in children. The influence of maternal feeding practices and behaviours F.C. Powell, C.V. Farrow and C. Meyer	683–692
Parent use of food to soothe infant/toddler distress and child weight status. An exploratory study C.A. Stifter, S. Anzman-Frasca, L.L. Birch and K. Voegtline	693–699
Parent- and child-reported parenting. Associations with child weight-related outcomes A. Taylor, C. Wilson, A. Slater and P. Mohr	700–706
Food intake, postprandial glucose, insulin and subjective satiety responses to three different bread-based test meals J. Keogh, F. Atkinson, B. Eisenhauer, A. Inamdar and J. Brand-Miller	707–710
Evidence that 'food addiction' is a valid phenotype of obesity C. Davis, C. Curtis, R.D. Levitan, J.C. Carter, A.S. Kaplan and J.L. Kennedy	711–717
Conscripts' attitudes towards health and eating. Changes during the military service and associations with eating P. Jallinoja, H. Tuorila, A. Ojajarvi, C. Bingham, A. Uutela and P. Absetz	718–721
Implicit wanting and explicit liking are markers for trait binge eating. A susceptible phenotype for overeating G. Finlayson, A. Arlotti, M. Dalton, N. King and J.E. Blundell	722–728
Body weight relationships in early marriage: Weight relevance, weight comparisons, and weight talk C.F. Bove and J. Sobal	729–742
Dyadic view of expressed emotion, stress, and eating disorder psychopathology C. Medina-Pradas, J.B. Navarro, S.R. López, A. Grau and J.E. Obiols	743–748
Near-infrared spectroscopic study on the effects of chewing on short-term memory M. Wada, Y. Hoshi, Y. Iguchi and I. Kida	749–752
Crossmodal correspondences in product packaging. Assessing color–flavor correspondences for potato chips (crisps) B. Piqueras-Fizman and C. Spence	753–757
Vitamin and mineral supplement users. Do they have healthy or unhealthy dietary behaviours? K. van der Horst and M. Siegrist	758–764
Acute effect of soybean beta-conglycinin hydrolysate ingestion on appetite sensations in healthy humans T. Hira, N. Mori, T. Nakamori, H. Furuta, K. Asano, H. Chiba and H. Hara	765–768

Special Section: Satiety and Slimming

Satiety and body weight control – Promise and compromise. Comment on, Satiety. No way to slim, F. Bellisle and A. Tremblay	769–771
Satiety—Not the problem, nor a solution. Comment on, Satiety. No way to slim, P.A.M. Smeets and L.N. van der Laan	772–773
Satiety: Let's put claims in the right context. Comment on, Satiety. No way to slim, D.J. Mela	774–777
Trustworthy satiety claims are good for science and society. Comment on, Satiety. No way to slim, C. de Graaf	778–783
Weight is controlled by eating patterns, not by foods or drugs. Reply to comments on "Satiety. No way to slim" D.A. Booth and A. Nouwen	784–790

Special Issue Papers: Feeding infants and young children: guidelines, research and practice

Feeding infants and young children: From guidelines to practice M.M. Hetherington, J.E. Cecil, D.M. Jackson and C. Schwartz	791–795
Development of healthy eating habits early in life. Review of recent evidence and selected guidelines C. Schwartz, P.A.M.J. Scholtens, A. Lalanne, H. Weenen and S. Nicklaus	796–807
The impact of flavour exposure in utero and during milk feeding on food acceptance at weaning and beyond L. Cooke and A. Fildes	808–811
Children's acceptance of new foods at weaning. Role of practices of weaning and of food sensory properties S. Nicklaus	812–815
Vegetables by stealth. An exploratory study investigating the introduction of vegetables in the weaning period S.J. Caton, S.M. Ahern and M.M. Hetherington	816–825
Relationships between parenting style, feeding style and feeding practices and fruit and vegetable consumption in early childhood J. Blissett	826–831
Increasing food familiarity without the tears. A role for visual exposure? P. Heath, C. Houston-Price and O.B. Kennedy	832–838
Feeding infants and young children: from guidelines to practice—conclusions and future directions C.M.J.L. Vereijken, H. Weenen and M.M. Hetherington	839–843
