

Water Resources Management

Volume 25 · Number 1 · January 2011

The Proportional Hazards Modeling of Water Main Failure Data Incorporating the Time-dependent Effects of Covariates

S. Park · H. Jun · N. Agbenowosi · B.J. Kim · K. Lim 1

Statistical Changes of Lake Stages in Two Rapidly Urbanizing Watersheds

S. Paynter · M. Nachabe · G. Yanev 21

Wavelet Transform Method for Synthetic Generation of Daily Streamflow

W. Wang · S. Hu · Y. Li 41

An Integrating Approach for Conjunctive-Use Planning of Surface and Subsurface Water System

L.-C. Chang · C.-C. Ho · M.-S. Yeh · C.-C. Yang 59

Small Amplitude Sharp Pressure Waves to Diagnose Pipe Systems

S. Meniconi · B. Brunone · M. Ferrante · C. Massari 79

Changes of Pan Evaporation in the West of Iran

H. Tabari · S. Marofi 97

Application of GIS for Evaluation and Design of Watershed Guidelines

R.S. Bhalla · N.W. Pelkey · K.V. Devi Prasad 113

Exploring and Evaluating Scenarios for a River Catchment in Northern Australia Using Scenario Development, Multi-criteria Analysis and a Deliberative Process as a Tool for Water Planning

A.T. Straton · S. Jackson · O. Marinoni · W. Proctor · E. Woodward 141

Elitist Continuous Ant Colony Optimization Algorithm for Optimal Management of Coastal Aquifers

B. Ataie-Ashtiani · H. Ketabchi 165

An Approach for Probabilistic Hydrological Drought Forecasting

S. Araghinejad 191

Water Quality in the Future Alcolea Reservoir (Odiel River, SW Spain): A Clear Example of the Inappropriate Management of Water Resources in Spain

M. Olías · J.M. Nieto · A.M. Sarmiento · C.R. Cánovas · L. Galván 201

Assessing Decentralised Water Solutions: Towards a Framework for Adaptive Learning

M. Moglia · S. Cook · A.K. Sharma · S. Burn 217

Total Urban Water Cycle Models in Semiarid Environments—Quantitative Scenario Analysis at the Area of San Luis Potosi, Mexico

S.E. Martinez · O. Escolero · L. Wolf 239

Statistical Distribution of Streambed Vertical Hydraulic Conductivity along the Platte River, Nebraska

C. Cheng · J. Song · X. Chen · D. Wang 265

Assessment of Sustainable Yield of Karst Water in Huaibei, China

D. Yin · L. Shu · X. Chen · Z. Wang · M.E. Mohammed 287

Applying a Modified VIKOR Method to Classify Land Subdivisions According to Watershed Vulnerability

C.-L. Chang · C.-H. Hsu 301

Effect of Breakage Level One in Design of Water Distribution Networks

M. Soltanjalili · O. Bozorg-Haddad · M.A. Mariño 311

Management of Water Reservoirs (Embungs) in West Timor, Indonesia

D. Pradhan · T. Ancev · R. Drynan · M. Harris 339

Drought Severity Assessment Based on Bivariate Probability Analysis

H. Vangelis · M. Spiliotis · G. Tsakiris 357

An Approach to Support Learning from International Experience with Water Policy

L.M. Hermans 373
