

Review

Rice direct seeding: Experiences, challenges and opportunities

- M. Farooq (Faisalabad, Pakistan and Crawley, Australia), K.H.M. Siddique (Crawley, Australia), H. Rehman, T. Aziz (Faisalabad, Pakistan), D.-J. Lee (Chungnam, Republic of Korea) and A. Wahid (Faisalabad, Pakistan) 87

A whole soil stability index (WSSI) for evaluating soil aggregation

- K.A. Nichols (Mandan, ND, USA) and M. Toro (Apartado, Venezuela) 99

Contrasted effects of no-till on bulk density of soil and mechanical resistance

- V. Chaplain (Versailles, France), P. Défossez (Villenave d'Ornon, France), G. Richard (Orléans, France), D. Tessier and J. Roger-Estrade (Thiverval-Grignon, France) 105

The effect of long-term *Maresha* ploughing on soil physical properties in the Central Rift Valley of Ethiopia

- B. Biazin (Wageningen, The Netherlands and Shashemene, Ethiopia), L. Stroosnijder (Wageningen, The Netherlands), M. Temesgen (Addis Ababa, Ethiopia), A. AbdulKedir (Shashemene, Ethiopia) and G. Sterk (Utrecht, The Netherlands) 115

Ploughing a poorly drained grassland reduced N₂O emissions compared to chemical fallow

- J.D. MacDonald, P. Rochette, M.H. Chantigny, D.A. Angers, I. Royer and M.-O. Gasser (Québec, Canada) 123

Reduced tillage effects on soil properties and growth of cereals and associated weeds under organic farming

- C. Vakali (Bonn, Germany), J.G. Zaller (Bonn, Germany and Vienna, Austria) and U. Köpke (Bonn, Germany) 133

Implications of scale, slope, tillage operation and direction in the estimation of surface depression storage

- J. Álvarez-Mozos, M.A. Campo, R. Giménez, J. Casali and U. Leibar (Pamplona, Spain) 142

Soil structure and soil hydraulic properties of Haplic Luvisol used as arable land and grassland

- R. Kodešová, V. Jirků, V. Kodeš, M. Mühlhanselová, A. Nikodem and A. Žigová (Prague, Czech Republic) 154

Does cultivation influence the content and pattern of soil proteins?

- B. Khalili, N. Nili, F. Nourbakhsh, B. Sharifnabi and H. Khademi (Isfahan, Iran) 162

Soil properties governing soil erosion affected by cropping systems in the U.S. Pacific Northwest

- G. Feng (Urumqi, China), B. Sharratt and F. Young (Pullman, WA, USA) 168

Characterization of a Brazilian clayey soil submitted to conventional and no-tillage management practices using pore size distribution analysis

- F.A.M. Cássaro, A.K. Borkowski, L.F. Pires, J.A. Rosa and S. de Costa Saab (Ponta Grossa, Brazil) 175

Influence of grazing on soil water and gas fluxes of two Inner Mongolian steppe ecosystems

- A. Reszkowska (Kiel, Germany), J. Krümmelbein (Cottbus, Germany), L. Gan (Hunan, China), S. Peth and R. Horn (Kiel, Germany) 180

Soil CO₂ emission and its relation to soil properties in sugarcane areas under Slash-and-burn and Green harvest

- A.R. Panosso, J. Marques Jr. (Jaboticabal, Brazil), D.M.B.P. Milori (São Carlos, Brazil), A.S. Ferraudo, D.M. Barbieri, G.T. Pereira and N. La Scala Jr. (Jaboticabal, Brazil) 190

Modeling edge effects of tillage erosion

- D.A.N. Vieira and S.M. Dabney (Oxford, MS, USA) 197

Contents continued from back cover

Forages, cover crops and related shoot and root additions in no-till rotations to C sequestration in a subtropical Ferralsol N.Z. dos Santos, J. Dieckow (Curitiba/PR, Brazil), C. Bayer (Porto Alegre/RS, Brazil), R. Molin (Castro/PR, Brazil), N. Favaretto, V. Pauletti and J.T. Piva (Curitiba/PR, Brazil)	208
Comparing penetrometer and shear vane measurements with measured and predicted mouldboard plough draught in a range of Swedish soils J. Arvidsson (Uppsala, Sweden) and T. Keller (Uppsala, Sweden and Zürich, Switzerland)	219
Soil carbon storage and stratification under different tillage systems in a semi-arid region C. López-Fando and M.T. Pardo (Madrid, Spain)	224
Short communication	
Soil organic matter humification under different tillage managements evaluated by Laser Induced Fluorescence (LIF) and C/N ratio T. Martins, S.C. Saab (Ponta Grossa, Brazil), D.M.B.P. Milori (São Carlos, Brazil), A.M. Brinatti, J.A. Rosa, F.A.M. Cassaro and L.F. Pires (Ponta Grossa, Brazil)	231
