

## Research Articles

---

- Use of the stable isotope  $^{57}\text{Fe}$  to track the efficacy of the foliar application of lignosulfonate/ $\text{Fe}^{3+}$  complexes to correct Fe deficiencies in cucumber plants** 395  
P Rodríguez-Lucena, A Benedicto, JJ Lucena, JA Rodríguez-Castrillón, M Moldovan, JI García Alonso and L Hernández-Apaolaza (Spain)
- Modelling the metabolic characteristics of proteins in dairy cattle from co-products of bioethanol processing: comparison of the NRC 2001 model with the DVE/OEB system** 405  
WG Nuez-Ortín and P Yu (Canada)
- Appropriateness of culinary preparations of potato (*Solanum tuberosum* L.) varieties and relation to sensory and physicochemical properties** 412  
HF Seefeldt, E Tønning, L Wiking and AK Thybo (Denmark)
- Fate of aflatoxin B<sub>1</sub> in contaminated corn gluten during acid hydrolysis** 421  
SE Aly and AS Hathout (Egypt)
- Bioactive xanthenes from the roots of *Hypericum perforatum* (common St John's wort)** 428  
SL Crockett, B Poller (Austria), N Tabanca (USA), E-M Pferschy-Wenzig, O Kunert (Austria), DE Wedge (USA) and F Bucar (Austria)
- Italian ryegrass silage in winter feeding of organic dairy cows: forage intake, milk yield and composition** 435  
L Baldinger, R Baumung, W Zollitsch and WF Knaus (Austria)
- Influence of heat on protein degradation, ultrastructure and eating quality indicators of pork** 443  
F Huang, M Huang, X Xu and G Zhou (China)
- Distribution of aroma volatile compounds in tangerine hybrids and proposed inheritance** 449  
T Miyazaki, A Plotto, K Goodner and FG Gmitter Jr (USA)
- Synergistic antimicrobial activity of galangal (*Alpinia galanga*), rosemary (*Rosmarinus officinalis*) and lemon iron bark (*Eucalyptus staigerana*) extracts** 461  
NS Weerakkody, N Caffin, LK Lambert, MS Turner (Australia) and GA Dykes (Malaysia)
- Genetic variation in the extract viscosity of rye (*Secale cereale* L.) bread made from endosperm and wholemeal flour: impact of high-molecular-weight arabinoxylan, starch and protein** 469  
MR Cyran and A Ceglinska (Poland)
- Quality changes in macadamia kernel between harvest and farm-gate** 480  
DA Walton and HM Wallace (Australia)
- Reduction of blood lead levels in lead-exposed mice by dietary supplements and natural antioxidants** 485  
J Jiao (USA, China), G Lü, X Liu, H Zhu (China) and Y Zhang (USA, China)

<b>Promising antifungal effect of some Euro-Asiatic plants against dangerous pathogenic and toxinogenic fungi</b>	492
M Zabka, R Pavela and L Gabrielova-Slezakova (Czech Republic)	
<b>Influence of Eriophyid mites (<i>Aculus olearius</i> Castagnoli and <i>Aceria oleae</i> (Nalepa) (Acarina: Eriophyidae)) on some physical and chemical characteristics of Ayvalik variety olive fruit</b>	498
H Çetin, D Arslan and MM Özcan (Turkey)	
<b>Influence of skin hardness on dehydration kinetics of wine grapes</b>	505
L Rolle, A Caudana, S Giacosa, V Gerbi and S Rio Segade (Italy)	
<b>Characterisation of <i>Lactobacillus fermentum</i> SM-7 isolated from koumiss, a potential probiotic bacterium with cholesterol-lowering effects</b>	512
DD Pan, XQ Zeng and YT Yan (China)	
<b>The impact of home freezing on the sensory characteristics of ready-to-use leafy vegetables</b>	519
M Mohammadi, MR Koushki, FS Ahmadian and M Moslemy (Iran)	
<b>Antioxidant status in rats after long-term intake of anthocyanins and ellagitannins from blackberries</b>	523
NMA Hassimotto and FM Lajolo (Brazil)	
<b>Functional and organic eggs as an alternative to conventional production: a conjoint analysis of consumers' preferences</b>	532
FJ Mesías, F Martínez-Carrasco, JM Martínez and P Gaspar (Spain)	
<b>The impact of transgenic papaya (TPY10-4) fruit supplementation on immune responses in ovalbumin-sensitised mice</b>	539
Y-N Chen, W-Z Hwang, TJ Fang, YH Cheng and J-Y Lin (Taiwan)	
<b>Effects of adlay bran and its ethanolic extract and residue on preneoplastic lesions of the colon in rats</b>	547
S-C Li, C-M Chen, S-H Lin, W Chiang and C-K Shih (Taiwan)	
<b>Screening for genotype and environment effects on nitrate accumulation in 24 species of young lettuce</b>	553
IG Burns, K Zhang, MK Turner, M Meacham, K Al-Redhiman, J Lynn, MR Broadley, P Hand and D Pink (UK)	
<b>Characterization of Brazilian lager and brown ale beers based on color, phenolic compounds, and antioxidant activity using chemometrics</b>	563
D Granato, GF Branco, JAF Faria and AG Cruz (Brazil)	
<b>Physicochemical and functional properties of a protein isolate produced from safflower (<i>Carthamus tinctorius</i> L.) meal by ultrafiltration</b>	572
JA Ulloa, P Rosas-Ulloa and BE Ulloa-Rangel (Mexico)	
<b>Emulsifying properties of the transglutaminase-treated crosslinked product between peanut protein and fish (<i>Decapterus maruadsi</i>) protein hydrolysates</b>	578
X Hu, J Ren, M Zhao, C Cui and P He (China)	
<b>Volatile composition and sensory quality of Spanish pomegranates (<i>Punica granatum</i> L.)</b>	586
Á Calín-Sánchez, JJ Martínez, L Vázquez-Araújo, F Burló, P Melgarejo and AA Carbonell-Barrachina (Spain)	
<b>Organochlorine pesticide residues in bamboo shoot</b>	593
Z-w Guo, S-l Chen and J-h Xiao (China)
